

Component

1. Turn on/off/ test button
2. DC Input:
3. USB Output
4. DC Output

Products

Battery type	Lithium ion
Capacity	2200mAh/14.8V
Dimension	95*82*23mm
Weight	24.1g
Color	Piano white or piano black
Input	DC 18V/2A
Output	USB 5V/0.5A; DC 16V/2.5A 19V/2.5A
Working temperature	-20—60℃
Charging time	About 3 hours

Feature

Strong energy backup

High capacity green lithium ion battery and power transmission efficiency .

It can charge for iPhone series, Laptop, cell phones etc.

Long using life

Lithium ion battery has over 300 times charging cycle.

The humanization operation

Touch-switch button , it can inspect power condition everytime, and the led display power

Intelligent control system

Using High-tech Protection program; over-discharge, over-charge, and short-circuit.

Dual output, digital products more convenient charging

USB and DC output can charge for the iPhone series, notebook series, NOKIA mobile phone brands, PSP and other electronic products, demand for electricity supply.

Mobile Power Manual

Thank you for purchasing our product. For optimum performance and safety, please read these instructions carefully before operating the product. Please keep this manual for future reference.

Using method

1. Charge mobile power

- 1) Press test button for inspect capacity.
- 4 LED all light 95%-100% power
- 3LED light 65%-95% power
- 2 LED light 35%-65% power
- 1 LED light 15%-35% power
- NO LED light Less than 15% power

- 2) When LED could not light, the mobile power need be charge . Connect AC adapter to mobile power , began to charging mobile power.

2. charge laptop

- 1) Press the button key at 3 seconds turn on the mobile power
- 2) Select correct voltage for laptop
- 3) 16V output ; it can direct connect laptop and mobile power .
- 4) 19V output . It can connect mobile power + 8800BH (booster) and laptop

- 5) After the charging , press the button key for 3 seconds to turn off

3. Charge for Digital devices (cell phone, iPod etc)

- 1) Checking the voltage of digital devices.
- 2) USB 5v match the 5V digital devices.
- 3) Select the right tips, Connect the mobile power and digital devices, it can charging.

4. DC output and USB output can work together

Items

- APC-8800C battery
- 18V/2AAC Adaptor
- AC charging cable
- 8800BH booster
- 8 pcs connectors of laptop (IBM, Acer, Lenovo, Asus, HP, DELL, Fujitsu, NEC, SONY)
- Manual
- AN compatibility list card

 **Caution: Forbid charging and discharging together.**
