# U7/U7H

Quick start guide

Thank you for purchasing SmartDevices U7/U7H tablet. U7/U7H is a sophisticated electronic product and you are requested to read and understand this manual carefully. This quick start guide will enable you to easily familiarize with basic functionalities of U7/U7H product.

Battery charging

Battery Charging Diagram

Please make sure that the battery is fully charged before your first use. To charge battery, please connect the matching charger to mains power outlet, and insert the DC jack end into the charge interface of U7/U7H. Switch ON the AC mains. After a few seconds, the charging instructions will appear on the screen. During battery charging, you can view the charging progress by pressing the power button. Once the charging is completed, please unplug the charger from U7/U7H and the power supply connection.

Power on

Hold down the power button until the SmartDevices Logo appears on the screen. Wait for a few seconds, after the system startup is completed then enter into the main interface.
Hibernate

Once booted up, a short press of power button will put the U7/U7H to hibernate state. During hibernation, U7/U7H will turn off the screen and enter into the standby condition, where it will consume very little power. Another short press of power button will bring the U7/U7H out of hibernation and you can continue with your operation.

Shutdown and forced shutdown

If you are not using the U7/U7H for several days, we recommend you to shutdown the machine. Hold down the power button for two seconds, and select "Power off" from the pop-up window "Tablet options" to completely shut down the U7/U7H.
In case of a system crash and the U7/U7H stops responding to your commands, please hold down the power button for more than 10 seconds to forced shutdown. You need to reboot the U7/U7H after a forced shutdown.
