

AFTERSHOKZ

English

# BLUEZ

Bone Conduction Headset

Keep ears open, be aware of surroundings

## Part description

## Accessories

Item	Quantity
USB to micro USB Charging Cable	1
Tension Band (with instruction sheet)	1
Warranty Registration Card	1

## Features

- ▶ Open Ear design to keep aware of surroundings.
- ▶ Stereo Bluetooth headset with wireless phone and music functions
- ▶ More comfortable and stable for extended use.

## How to wear

Place the wraparound head band behind your neck with the transducers resting on the bone in front of your ears, not on your ears.

#### Note:

The adjustable (and removeable) **Tension Band** on Bluez is recommended for those who have a small head or feel Bluez is not secure on their head. Adjust to fit or remove the **Tension Band** as needed.

### How to charge

Connect Bluez to a standard USB port on your PC or a wall charger via the USB charging cable. Bluez will fully charge in 3 hours. The LED Indicator will show solid red when charging, and will turn solid blue when charging is completed.

#### Note:

It's recommended to charge Bluez before using for the first time. Bluez is not functional while charging.

### How to pair

- Slide the **Power Switch**  on Bluez to the "ON" position.(green)
- Locate the Bluetooth menu on the device and select "AFTERSHOKZ".
  - If Bluez is pairing with a device for the first time, it will enter the pairing mode automatically. The LED indicator will flash blue/red.
  - Bluez will automatically reconnect with a device that was previously paired in less than 18 seconds. The LED indicator will be flash blue.

- To pair with another phone or re-pair with a device, press the **Play Button**  and hold for 5 seconds to enter manual pairing. The LED indication will flash quickly blue/red.

#### Note:

If out of range while connected to a device (more than 33 feet/10 meters), Bluez will disconnect from the device. Once Bluez is back within range, it will automatically reconnect. However, if Bluez is disconnected

for a long time (more than 3 minutes), you may need to press any button on the headset, to reconnect the device.

If the device is turned off while connected to Bluez, Bluez will disconnect from it. When you turn on the device again, just press any button on Bluez to reconnect manually.

### LED indication

Color	Status
Red(quick flash)	Low battery
Red(solid)	Charging
Blue(solid)	Charging complete
Red(quick flash four times when shutting down Bluez)	Less than 2 hours working time
Blue and Red(flash)	Pairing
Blue(quick double flash)	Discoverable for pairing
Blue(slow double flash)	Bluez and a paired mobile phone are not connected. One of them is not turned on, or the two are more than 33 feet (10m) apart.
Blue(slow flash)	Connected, making a call, streaming audio
Blue(quick flash)	Receiving a call

## Storage and maintenance

Store the headset in cool and dry place. The working temperature should be 32-113° F). Working in cold/hot environment or highly humid area will reduce the life of battery.

For storage for a long period, please charge the headset before using again.

The headset is water resistant, but is NOT waterproof. Please DON'T put the headset into water. Clean it with soft cloth if necessary.

Clean the headset with a soft dry cloth.

Do not bring the headset into contact with any sharp object.

Do not leave the headset to extremely high or low temperature.

## FCC Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

### Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## Declaration of Conformity of Industry Canada

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This Class [B] digital apparatus complies with Canadian ICES-003.
