Facial Beauty Handy Mist is a portable instrument for deep skin care by adopting nanometer ion technology - a kind of advanced high technology. It can atomize the water skin care product on a tiny and quick basis, and form the soft essence skin care spray to moisturize your face. It can also penetrate into the basal cell layer of the skin with high efficiency to bring the skin perfect deep care.

**Specification of the machine:**
- Size of the whole machine: 112*35*24mm
- Capacity of the liquid storage tank: 7ml
- Power: 1.5W, built in recharging lithium ion battery in 3 hrs
- Rating voltage: DC5V

**Operation:**
- Spray for 30 sec each time
- Automatically off after 30 sec
- Built in rechargeable Lithium Ion battery
- Continuously use for 200 times if power fully charged

**Way to control the power:**
When the power switch is on, the power is off; taking off the power switch, the power is on.

**Spraying method**
1. Please shake the machine slightly upward and downward for several times to remove air before use.
2. Unlock and open the cover of the liquid storage tank
3. Install proper cosmetic liquid and fasten the cap
4. Preferably to hold it vertically and move downward the sliding cap
   **Do not hold it horizontally if the liquid storage level is less than 3.5ml**
5. Spray in 15-20cm far away from the face
6. Move backward to stop spraying, or it will stop in 30s automatically
7. Please hold the machine vertically and the cosmetic liquid probably fails to reach the spray nozzle when inclined or rotated.
8. The spray nozzle may be blocked if the cosmetic liquid is concentrated there.
9. When the electricity quantity remains insufficient, please recharge the battery.
Cleaning the liquid storage tank:

1. Unlock and open the cap of the liquid storage tank.
