5. Safety Instructions
• Long time exposure to loud music may cause hearing damage. Please avoid using extreme volume when using this MP3 Player, especially for an extended period of time. It's advisable to adjust the volume at moderate volume at all time.
• Do not use this MP3 Player while operating a motor vehicle, or in any other instances where failure to hear outside sounds may represent a danger either to yourself or others.
• Switch off your MP3 player before boarding any aircraft.

6. Care and Maintenance
• Do not place the MP3 player in high temperature, as it will result in explosion.
• Do not expose the MP3 player to contact with sharp objects as this will cause scratches and damage.
• Avoid charging the MP3 player in extreme high or low temperatures.
• Do not open or mutilate the built-in Li-ion battery, as it will cause the MP3 player into damage.
• You must plug the waterproof earphones into your ear canal and fix the cable well before going into water, especially you go swimming. Please refer to appendix.

Warning: Swimming without plugging the waterproof earphones into ear canal will damage the waterproof earphones.

8. Appendix
8.1 Important Notice
Please follow the steps below to ensure the waterproof protection before swimming:
• waterproof earphones must be used for swimming:

Steps 1:
Screw the earphone plug into the earphone jack on the player. Make sure that it is plugged tightly into the player.

Steps 2:
Steps 3:
*Make sure that the earphone is screwed tightly into the earphone jack!

Steps 4:
Steps 5:
As shown in the following figures, hang the MP3 player onto the goggles band. (For swimming).

Steps 6:
You must plug the waterproof earphones into your ear canal and fix the cable well before going into water, especially you go swimming.

Warnings: Swimming without plugging the waterproof earphones into ear canal will damage the waterproof earphones. If the volume of earphones is getting low, make sure there is no water drops stuck on the earphone sound ports. You can swing the earphones or knock it onto a harmless surface to remove the water drops.
General Applications
Both waterproof earphones and normal earphones are suitable for general applications. You may put the MP3 player in your bag or pocket and enjoy music using either the normal earphones or waterproof earphones, with or without the extension cable.

8.2 Resetting the player
Using the reset needle to plug into the earphone jack to reset the player.

8.3 Recharging/Uploading MP3 player
