18. Operation notice.
Do not expose your device to liquid, moisture or humidity as it is not waterproof.
Do not use abrasive cleaning solvents to clean the device
Do not expose the device to extremely high or low temperatures.
Do not dispose the device, nor its batter pack in a fire as it will result in a explosion.
Do not bring the device into contact with sharp objects as this will cause scratches and damage.
Do not attempt to disassemble the device as it does not contain serviceable components.
If you do not use the BT car kit for long periods, be sure to store it in a dry place, free from extreme temperatures and dust.

Bluetooth Specification: BC2.1 with A2DP
Bluetooth Operation distance: Max 10 meter
Range of Frequency: 2.4GHz
Input Voltage: DC12V ~24V
Weight: 600
Operation temperature: -20C ~ 70C

20. TROUBLE SHOOTING
If you are unable to connect your BT Car Kit to the cell phone, please check and try the following:
Ensure the device is switched ON
Ensure both your device and cell phone with enough power to reach connectivity.

Ensure the device is paired with your mobile phone (Please refer to your mobile phone User Guide for specific instruction)
Ensure the device is within a maximum of 10 meters of the mobile phone and there are no obstructions, such as walls or other electronic devices in between.
If pairing operations fail:
a. Delete the old search record from the paired list on your cell phone.
b. Reset both the handset and the BT Car Kit by turn them off and on.
c. Re-pair the two devices.
If can't display the caller Name...
Ensure that your cell phone own the telephone book function.
Ensure that you transmit the telephone number into the device.
Ensure that your name is English letter.

Still experiencing problem...
Turn off the handset for approximately five seconds.
Note: In some instances, this action clears up any potential bugs up in the phone software that can hinder proper pairing.
Repeat pairing process as outlined earlier in this guide.
If you have connected to your BT Car Kit to the handset, but the voice sound cannot come out from the internal speaker:
- Ensure the FM is on or off.
- Ensure the volume control is on.
- Ensure the earpiece is properly reposed back into the BT Car Kit.
- Check the radio signal strength indicator in your mobile phone, as you may be outside the service area.
Your current location may not provide good call quality. Move to a location where radio signal strength is greater and less interference.

Magnetised objects such as health necklaces placed near the BT Car Kit or your mobile may terminate the call. Keep away from such objects.

Note: Please note that it possible that the BT Car Kit buttons might not operate according to the instructions in this user guide if your handset has an unusual wireless interface. In this case, please reset both the BT Car Kit and cell phone.
Bluetooth car kit, safe driving for new life
