1. Place the spring loaded bottom clips underneath the car’s existing rear view mirror. (Fig.1)

2. Lift up the Bluetooth Mirror then tilt the mirror towards the existing rear view mirror. (Fig.2)

3. Let the spring loaded clips close around the mirror. Adjust the Bluetooth Mirror for the best rear view. (Fig.3)
Switching on/off Bluetooth Mirror
Switch on the mirror, the mirror screen will display “HELLO”. You can listen to “Power on”. If you have connected your mobile to the mirror, then the mobile will automatically connect to the mirror. If not, go to the following step to pair and connect.

Pair and Connect
- Please keep Bluetooth mirror and cell phone in 1 meter when pairing.
- Switch on the Bluetooth mirror car kit.
- Hold the Multi-function button, when you listen to “Ready to pair”, the mirror can be paired.
- Activate your cell phone’s Bluetooth function. Please refer to your cell phone’s user guide for instructions about the Bluetooth connectivity.
- Search for Bluetooth devices with your cell phone. Select “Car kit 18” from the shown Bluetooth devices list.
- Enter pass code “0000” to confirm the pairing process, the mirror screen will display “PAIR OK”.
- Pairing is now complete, then choose “connect” on your mobile (Some mobiles will connect automatically just like Iphone). After connected the mirror will display “CONNECTED”, you can listen to “Phone 1 connected”. The blue LED indicator will flash every 3 seconds.

Pair and Connect the Second Mobile Phone
- Disconnect the phone 1 to the mirror.
- Hold the Multi-function button, when you listen to “Ready to pair”, the mirror can be paired.
- Pair and connect the second mobile to the mirror, just like connect the first mobile. Repeat the same operation.
- Connect the first phone to the mirror directly again. Don’t need to pair again. Then you can listen to “Phone 2 connected”.

Using Bluetooth Mirror
First of all, please keep the device pairing with your cell phone and the battery full.
1. Answering a Call
To answer an incoming call, please press the Multi-Function Button once.

2. Ending a Call
When you want to end the call, just press Multi-Function Button once again.

3. Rejecting a Call
When you need reject an incoming call, please Hold Multi-Function Button, the Bluetooth mirror screen will display "END CALL", the call is rejected.

4. Redialing Last Number
When you need redial the last number, please double touch the Multi-Function Button.

5. Voice Dialing
Press the Multi-function button, wait for the dial tone and clearly say the name of the person you would like to dial.
Note: Only works with cell phones that are equipped with voice dialing function.

6. Volume Control:
Press Up/Down Button to decrease/increase the volume when talking.

7. Switching Conversation Between Cell Phone and Bluetooth Mirror
To switch Bluetooth minor conversation to cell phone, please press Up and Down Button simultaneously. Repeat this operation again will switch the phone conversation to Bluetooth mirror.

8. FM transmitter:
If you want to send the sound to the car radio, please hold "UP" Button, then the BT mirror will display"CH 88 1". Please turn on your FM radio and keep the frequency at FM 88.1. Please note that the frequency from BT mirror and your Car FM radio must be the same.
In this BT mirror, we set full frequency, from CH 88 1 to CH 107 9.

9. Charging:
The Bluetooth mirror battery is rechargeable Li-ion battery. When the battery is low, the mirror screen will display "POWER LOW". Please insert the charging plug into the Car Cigarette Lighter Port, the red LED indicates will be light. Please allow 2 to 3 hrs for the unit to be fully charged. When the battery is full, the Red LED will shut down.

★ Private Talking
If you want to private talking, you can take off the earphone. When you finish the talking, put back the earphone, the BT speaker will work again.

★ Change the Language Instruction
There are three languages instruction that you can choose. "Chinese, English, Spanish". Please just hold the RIGHT KEY. You can get the operation instruction to know how to change the language that you want
