iPhone 4 BT Keyboard Case

User's Manual
Step I  Place Your iPhone into the case

Step II  Pair Your iPhone with the Keyboard

Note: This step is only needed when you first use this keyboard case.

Turn on your iPhone and tap "setting".
Tap "General"

And find the "Bluetooth" option

Slide the Bluetooth button to "on" and your iPhone will start to search Bluetooth devices.

You should turn the switch in the keyboard to "on" position.
And active the Bluetooth button with a little stick

Then the Bluetooth signal light on the left top of the keyboard will be on

Now, your iPhone will find this Bluetooth keyboard

Then you should tap "Bluetooth Keyboard" option, then a blue window with a password will come out
Enter the password on the Bluetooth keyboard then the press the "Enter" key, then your iPhone is successfully paired/connected with the Bluetooth keyboard.

Step III: Start to use the keyboard.

You can write messages, notes, and email with this keyboard instead of the touchscreen keyboard on your iPhone.

However, you can press "fn" + "the key with keyboard symbol" at the same time to get the touchscreen keyboard back.
Press the "Shift" key at the same time if you want to type the white symbols on the left top of some keys.
Press the "fn" key at the same time if you want to type the blue symbols on the left top of some other keys.

Troubleshooting:
If you are unable to connect the keyboard to your phone, please try the following:
1. Check if the battery is low. If the battery is low, some keys will react slowly and even don't work. Then you should charge the battery.
2. Check the power switch, make sure it is on. If it is on, the power light on the left top of the keyboard will flash for two seconds.
3. Restart the Bluetooth switch, make sure your phone can search this device.
4. if the password for pairing is correct.

Cautions:
1. The case is made of plastic, please avoid any corrosion and leave it away from fire.
2. Please operate according to the instructions in the user's manual; we would not be responsible for any damage caused by inappropriate operation.

Technical Specification: 3.7V 110-240V Li-ion Battery 4 hours For the first time, please charge for 12 hours. 

Please note:
- Charged battery life: 3.7V 110-240V Li-ion Battery 4 hours For the first time, please charge for 12 hours.
