

iPhone 4 BT Keyboard Case

User's Manual

Step I Place Your iPhone into the case

1

Step II Pair Your iPhone with the Keyboard

Note: This step is only needed when you first use this keyboard case

Turn on your iPhone and tap "setting"

2

Tap "General"

And find the "Bluetooth" option

3

Slide the Bluetooth button to "on" and your iPhone will start to search Bluetooth devices

You should turn the switch in the keyboard to "on" position

4

And active the Bluetooth button with a little stick

Then the Bluetooth signal light on the left top of the keyboard will be on

5

Now, your iPhone will find this Bluetooth keyboard

Then you should tap "Bluetooth Keyboard" option, then a blue window with a password will come out

6

Enter the password on the Bluetooth keyboard then the press the "Enter" key, then your iPhone is successfully paired (connected) with the Bluetooth keyboard

Step III Start to use the keyboard

You can write message, notes and email with this keyboard instead of the touching keyboard on your iPhone

However, you can press "fn" + "the key with keyboard symbol" at the same time to get the touching keyboard back.

Press the "Shift" key at the same time if you want to type the white symbols on the left top of some keys
Press the "fn" key at the same time if you want to type the blue symbols on the left top of some other keys
