7. OPTIONAL CONNECTIONS

7.1 Connecting to a computer

Connect the MID to computer to transfer files

7.1.1 Connect you're MID to the computer

With the included USB cable:

- Plugging the small end of cable into the USB2.0 Hi-speed connector of the MID.
- Plugging the large end of the cable into an available USB 2.0 Hi-speed port on the PC.

7.1.2 When you're MID is connected, a USB icon will appear in the Notification bar.

Click the notification bar to show the USB options:

7.1.3 Mount the storage driver
Touch USB connected (internal) to mount the MID's built-in storage, then touch Mount when prompted to confirm. When mounted, you can copy files from/to your PC to MID.

If a memory card is installed, touch USB connected (external) to mount the card, then touch Mount when prompted to confirm. When mounted, you can copy files from/to the PC to it.

Your MID will be recognized by the PC as a removable storage drive. Drag and drop files between MID and the PC.

7.2 Connecting to a TV
Connect to a TV to enjoy your MID from the comfort of your living room. An HDMI cable (Type A to Type C) is required to connect the MID to a TV.

7.2.1 Plug the small end of the HDMI cable into the mini HDMI connector of the MID.
7.2.2 Plug the large end of the HDMI cable into the HDMI port on the TV.
7.2.3 Turn on the TV, and set its display mode to the HDMI port that the MID is connect to.

The MID's display will be output to the TV screen.

7.3 Connecting Headphones
Connect a pair of headphones (or earphones) to the MID to enjoy media in private. Lower the volume level of the MID before connecting headphones, and then slowly raise the volume to a comfortable listening level.

The headphones must have a 3.5mm (1/8 in) plug.

When headphones are connected, speaker output will be disabled automatically.

7.4 Connecting a Keyboard
For times when you want to type for an extended period of time, you may want to connect a full-size keyboard to the MID.

You may also use this connection to add a mouse to the MID. The adapter supports one connection at a time.

To use a keyboard and mouse simultaneously you will need to add an external USB hub.

7.5 Connecting a Storage Device
Use the included USB full-size (Type A) adapter to connect a storage device to the MID (e.g. a USB flash memory drive).

8. GPS
Find this function
Go to the interface of power management, open the GPS module power supply.
