

# Mosaic Glass Solar Light

## Operating and Safety Instructions

### IMPORTANT SAFEGUARDS

#### Definitions

*Whenever used, the following terms identify safety and property damage messages and designate a level of hazard seriousness.*

**▲** - This is the safety alert symbol. It alerts you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

**DANGER** - Indicates an imminently hazardous situation, which, if not avoided, will result in death or serious injury. Usage of this signal word is limited to the most extreme situations.

**WARNING** - Indicates a potentially hazardous situation, which, if not avoided, could result in death or serious injury.

**CAUTION** - Indicates a potentially hazardous situation, which, if not avoided, may result in minor/moderate injury.

**NOTICE** - Addresses practices not related to personal injury, such as product and/or property damage.

**READ ALL INSTRUCTIONS BEFORE USE.**

## ⚠ CAUTION

- This product is not a toy and is not intended for use by children.
- This product is intended solely for non-commercial, outdoor decorative lighting. Do not use it for any other purpose.
- Do not immerse the product in water/liquid.
- Avoid touching the Solar Panel except to wipe it clean.
- Always place the product on a flat, level, stable surface.

### Battery Handling and Usage:

#### ⚠ WARNING:

- Keep batteries away from children. Only adults should handle batteries.
- Follow the battery manufacturer's safety and usage instructions.
- Never throw batteries into a fire.

#### ⚠ CAUTION:

- Always use the size and type of battery indicated.
- Insert the battery observing the proper polarity (+/-) as indicated.

#### NOTICE:

- Clean the battery contacts and those of the device prior to installation.
- Remove the battery from the product when spent or discharged. Dispose or recycle spent/discharged batteries in compliance with all applicable laws.
- Remove the battery when not using the product for an extended period.

### How the Solar Light Works

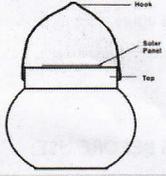

**NOTE:** This Solar Light uses one "AA" size rechargeable battery (included).

During the day, the Solar Panel converts sunlight into energy to charge the battery.

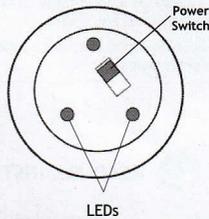

**NOTE:** Slide the Power Switch to ON when charge the battery by sunlight.

At night, the energy stored in the battery is used to illuminate the Solar Light. The number of hours (six to eight) of illumination depends on several factors, such as weather conditions, location, and seasonal sunlight availability.

### Parts

2

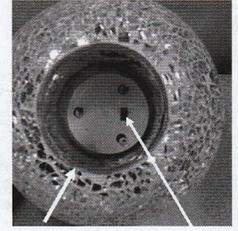

**NOTE:** The Hook is not intended as a hanging device for the Solar Light. It is intended only for use in securing the Top and transporting the item.

### To Use

1. Place the Solar Light in a location that receives a lot of direct sunlight and is away from artificial lights, which may interfere with the solar sensor.
2. Remove the film on the Solar Panel.
3. Turn on the Solar Light by reaching up through the bottom of it and sliding the Power Switch to the ON position.

#### NOTES:

- The Solar Light requires eight to ten hours of charging (absorbing direct sunlight) for six to eight hours of illumination.
  - While turned on, the Solar Light will illuminate at night in an unlit area and cease illumination at daybreak.
4. To turn the Solar Light off, slide the Power Switch to the OFF position. Remove the battery if the unit will not be used for an extended period.

Bottom of Solar Light

Power Switch

### Battery Replacement

1. Slide the Power Switch to OFF.
2. Remove the Top:
  - a. Remove the Hook by pulling both ends of it outward.

Pull both ends of Hook outward

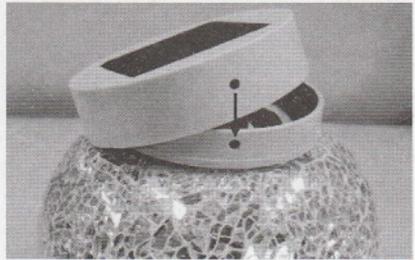

- b. Lift off the Top. (Do so carefully to prevent damage to the wires connecting the Top to the Battery Compartment.)

3

3. Remove the spent battery. Place a new "AA" size rechargeable battery into the Battery Compartment. Make sure to align the polarity indications (+/-) on the battery with those in the Battery Compartment.
4. Replace the Top by aligning the holes in it with the holes in the Rim of the Solar Light. Insert the ends of the Hook into the aligned holes to secure the Top.

Align the holes.

5. Slide the Power Switch to ON.

#### Care and Maintenance

**NOTICE:** Do not use harsh or abrasive cleaners or pads on the item.

- Clean with a soft, damp cloth.
- Keep the Solar Panel free of dirt, snow, and other debris.
