## Multifunction Key

How to use shortcut key:Fn+blue character Multifunction Key

Switch Input Method

iOS: CMD/Win+Space Key

Windows:CMD/Win+Space Key

Android:Ctrl+Space Key

## Instruction Of the Keyboard

LED Indicator

- 1, Turn the Side Switch to the ON position, Bluetooth pairing indicator (blue light) flash indicates the keyboard is turned on.

- 2, Press Bluetooth pairing key to active the pairing mode. When Bluetooth pairing indicator (blue light) is flashing, your keyboard is set up for pairing. Turn on the Bluetooth of your tablet PC, search for "Bluetooth Keyboard " and click to connect. After Bluetooth pairing indicator is off, your keyboard is paired successfully and ready to go.

Caps Lock Indicator

After the keyboard connects to the tablet PC, click the Caps key, the Capslock light is always on.

## Tips

- 1, Automatic reconnect: the keyboard will automatically reconnect to the last device paired( no pairing code needed)
- 2, When tablet is under sleep status, if it is unable to activate by clicking the touchpad, you can tap the letters on the Bluetooth keyboard to activate.

Attention: iOS system don't support touchpad function.
