2. Safety Warnings and Precautions

Please read these precautions carefully before using the watch phone to ensure proper use of it.

Please turn off the watch when you are in the plane, hospitals or other places where cell phones are prohibited to be used. Otherwise it will affect the normal operation of electronic equipments and medical instruments. Please comply with the relevant provisions of the workplaces when you use the watch in these places.

When approaching the places of fuel, chemicals, explosives, etc, please abide by the laws, regulations and related marks.

Please don't use the watch in the places with weak signal coverage or near high-precision electronic devices. Radio wave interference may cause malfunction of electronic devices and other problems. In particular, a special attention is needed in the vicinity of the following devices: hearing aids, pacemakers, medical electronic devices, fire detectors, automatic doors and other automatic control devices. For impacts on the equipment, please consult the device manufacturer or your local distributor.

Precautions to Use the Watch

Do not disassemble or modify the watch, otherwise it will cause damage or leakage to it. For disassembling it, please ask professionals for help. Non-professionals may not dismantle the machine.

Do not beat the touch screen or use it to beat other objects, otherwise it will cause liquid leakage or damage to LCD. LCD liquid into the eyes may cause blindness. Please rinse immediately your eyes if any liquid splashed into the eyes (do not rub them), and immediately ask the doctor for help.

Do not use needles or other sharp objects to touch any keys and touch screen, otherwise it will damage the watch or cause improper operation.

Please avoid the watch is close to any magnetic objects, e.g., magnetic card. Radiation waves of watch phone may remove the data stored on the floppy disks, stored value cards or credit cards.

Please ensure the watch is free from damp, water or other liquids which will cause short circuit, leakage or other defects to the watch.
