LED PROJECTOR USER MANUAL

IMPORTANT SAFEGUARDS:
When using electrical products, especially when children are present, basic safety precautions should always be followed, including the following:
READ ALL INSTRUCTIONS BEFORE USING
DANGER - To reduce the risk of electric shock:
• Always unplug the appliance from the electrical outlet immediately after using and before cleaning.
• DO NOT reach for an appliance that has fallen into water. Unplug it immediately.
• DO NOT use while bathing or in shower.
• DO NOT place or store appliance where it can fall or be pulled into a tub or sink.
• DO NOT place in or drop into water or other liquid.
• NEVER use pins or other metallic fasteners with this appliance.
• Keep dry - DO NOT operate in a wet or moist condition
WARNING - To reduce the risk of burns, fire, electric shock or injury to persons:
• An appliance should never be left unattended when plugged in. Unplug from outlet when not in use and before putting on or taking off parts or attachments.
• Close supervision is necessary when this appliance is used by, or near children, invalids or disabled persons.
• Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by supplier; specifically any attachments not provided with the unit.

Using Guide

Powering ON and OFF
Standby Status: After the projector is powered through adaptor, the indicator lamp will flash, then enters standby status.
Power on: Press the power button, the indicator lamp will be steady on after a quick flash, the projector starts to work;
Power off: Press the power button, the indicator lamp will be steady on after a quick flash and enters standby status, disconnect the power cable, then the projector is off.

Focusing
Depending on the distance between the projector and the screen or the projection wall, the projection image size ranges from 17 to 67 inches.
After powered on, put the projector at a certain place within the distance scale, and then rotate the lens to make the picture clear.

How to play
Press the 'Input' key to enter the input source menu (including video/USB/SD card), then press 'Enter' Key to confirm the input source you need.
Video can be directly broadcasted through the video signal channel. If signal source comes from USB/SD card, first press 'Left', 'Right' key to choose the formats such as Music, Video, Picture, then press 'Enter' to play the content.
How to set up: Long press 'Enter' to enter the setting up menu, operation such as 'OSD language', 'Restore factory settings', 'Software update' can be adjusted here.

PLEASE NOTE: Settings will only be saved when the projector is put down properly.
