The SIM card dealer can be a service supplier, network operator or other dealer.

   1. Pressing before taking out battery must close cellular phone and break to open a cellular phone and charger of conjunction.

   2. Take out battery: It have cave slot to start to pull the words machine battery cover upward.

   3. Insert the SIM card into the SIM slot.

   4. Re-pack into the battery, and target express the cellular phone the cover.

1.4. Install T-Flash cardsaving card
   If demand extended memory, you can to pass to install outside place of the T-Flash card expand a words machine memory and it be easy to deposit more sound, video frequency document. T-Flash card the capacity be general to have: 64 MB, 128 MB, 256 MB, 512 MB etc... Insert method and step of T-Flash card or together install SIM card homologous. Insert the T-Flash card into the T-Flash card slot among them, and insure the cave Cape that the cave Cape of card aim at a card, the metals of T-Flash card touch point and cellular phone contact, and target it into.

Attention: 1. SIM card, T-Flash card and its metals touch a point easiest a scoring or because of friction but damage, so as usage, insert or take out SIM card and T-Flash card, must be especially careful.

2. Please the place that all SIM card and T-Flash card's put don't arrive at the kid's contact.

1.5. Refresh
   This cellular phone adoption lithium ion standard refresh battery power supply, and equipment trip type charger. Usage trip the type charger refresh and allow
in the battery refresh the process usage cellular phone, but this will cause to refresh speed to reduce slow.

- Battery after packing into the cellular phone, the trip type refresh of charger the plus insert a cellular phone to refresh a socket.
- Insert the travel charger into the standard AC power electric outlet.
- Dismantle a travel charger from the AC outlet and the cellular phone after refreshing to complete.

Attention:
1. First time usage origin cellular phone front, need first battery in of remainder remaining electricity the quantity thoroughly use up, and ex-three times have to make battery experience complete of refresh to turn on electricity, namely: Every time refresh to the battery for 10-12 hours, with full activate battery, make its capacity attain design of biggest value. Complete battery refresh electric to electricity again be full of, about need 4 hours.

2. At battery long time use or battery electricity quantity lead under the low circumstance refresh, insert suppress the charger a demand a period of time cellular phone then can normal manifestation refresh interface.

1.6. The regulation of the usage battery

- Please don't use the usage already the battery or charger of the damage or expiration.
- Please don't used to cellular phone battery other use.
- The parameter of the signal strength of the cell phone network and the network constitution of operator, all would influence converse with battery back up time.

Please an usage appropriation battery and charger that passes through approval.

- When battery electricity quantity exhausts please refresh in time, excessiveness turn on electricity a meeting damage your battery.
- When battery refresh electric time, be decided by battery surplus an electricity quantity, and the category of the battery and charger use. When not usage charger, cut off power supply, the battery can't be continuous to refresh over a week, excessiveness refresh of battery life span that will shorten battery fresh time, and refresh over a week, excessiveness refresh of battery life span, the battery for idle.

- Now battery or long-term don't the battery of the usage need to be carry on more long-playing to refresh.
- Have already been full of the battery of electricity, if long time place need not electricity quantity would gradual decrease.

The battery can refresh and discharge a hundred times, but battery would be gradual refresh but demand more long time of refresh, this belong to normal phenomenon. When time (converse time and back up time) of usage ratio normal circumstance obvious shorten, then should purchase new of original factory battery or battery approve by our company, inferior accessories would injure cellular phone combine cause damage.

- Lead Gas or lead (low temperature, all would influence refresh of battery function, but possibility demand in electricity quantity battery or battery approve by our company, inferior accessories would injure cellular phone combine cause damage.

- Load Gas or lead (low temperature, all would influence refresh of battery function, but possibility demand in electricity quantity battery or battery approve by our company, inferior accessories would injure cellular phone combine cause damage.

Please provision according to the region, processing abandon battery. Don't battery deviation fire in, in order to prevent occurrence dangerous.

- Don't put battery is lead hot or lead cold place, as far as possible keep at under the indoor temperature, in order to prevent cause life span and electricity of lower the battery quantity. Even electricity the quantity be ample, be the battery lead hot or lead cold hour may cause the cellular phone operation.

- Please don't make battery short circuit. For example, when the back up battery put in the pocket or the handbag, the metals product (coin or foostanierpen) may make battery of plus or minus pole connect, occurrence accident short circuit. Battery short circuit would damage battery or conjunction thing. Any battery short circuit of four accidentally result in explosion, a fire or human body injury etc. severity result!

   - Close: Withdraw impress the music player interface an auto close to broadcast music.
   - Blue toothconstitution: The blue tooth is high fidelity to output/blue tooth high fidelity headphones.
   - Sound effect constitution: Balanced machine constitution dissimilarity the music 3 D broadcast effect

7.5. Video frequency player
"Video frequency player" can broadcast the short
subject that the customer take by himself(herself) and also support broadcast the short subject of format MPEG-4 and 3 GP format.

Hint:Need to insert "saving card" conduct and actions to read path before broadcasting a short subject material, sequence can normal broadcast.
1. Broadcast: Broadcast that video frequency short subject.
2. Send out: Send out the video frequency short subject to the colorful message, blue tooth.
3. Change name: Modification current name of video frequency short subject.
4. Delete: Delete current video frequency short subject choose.
5. Delete all document: Delete all video frequency short subject which have already keep.
6. Row prefix: According to the name, type, time, size the prefix and choose "have no in proper order" be random arrange.
7. Keep path: Rightness should catalogue at "video", recognize tactility for saving the card be a video frequency short subject to read/keep path...

7.6. Frequency modulation radio
The frequency modulation broadcasting that this cellular phone provide free from function, easy to you use a cellular phone to anywhere listen to broadcast an information at any time.
Hint: Have to function square while insert the appearance of headphones can usage.

7.7. Recording
This cellular phone recording of keep a format to have AMR, WAV respectively, AMR 3 kinds can choose a format. The Audio document which recognize tactility to keep path for "cellular phone" clip medium. The related constitution is shown as the following:
1. Recording: Start to be new of recording.
2. Broadcast: Broadcast a current an excerpt sound.
3. Additional: Continue in currently the excerpt sound additional new of speech recording.
5. Delete: Delete current excerpt sound.

6. All delete: Delete all recording.
8. Send out: Send out this recording document most genuine feeling view node, colorful message and blue tooth.
9. Balanced machine
Can pass the constitution balanced machine, make music broadcast the effect attain heavy bass, dance music, classical music, Gao Yin, party, pop music, rock'n'roll music.

8. Data
"Data" is keep of "cellular phone saving" and "outside place T-FLASH card" that this cellular phone provide for the customer management space, in order to download fancy of music/video frequency/picture/book etc. document, can also usage the file text keep important document.
1. Open: Open the documents, such as reading (Audio), e-book (E-book), music document (My Music), picture (Photos) and video frequency short subject (Video) etc. clip.
   * Recorded (audio), Recorded (picture) recognize tactility of document keep path:
   * Open: open a document;
   * Broadcast: Broadcast a current to choose of recording document;
   * Send out: Send out destination according to file type choice: (Scene mode, colorful message, blue tooth)

Detail: Time of document creation and file size:
   * Change name: Change document name;
   * Replication document: Replication should the document go to other the data clip;
   * Move: Move that file to the other data clip;
   * Delete: Delete the document choose;
   * Delete all document: Delete current the data clip medium of hasings sub-document;
   * Row prefix: According to the name, type,
time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.

* New set up a document to clip-under the catalogue the establishment be a new of the data clip; * Change name-change the name that the data clip; * Delete-delete that data to clip and among them of havings document; * Row prefix-according to the name, type, time, size row prefix, can also choose “have no in proper order” be random arrange.
clip medium of havings sub-document;
* Row Preface way: According to the name, type, time, size row preface, can also choose "have no in proper order" be random arrange;
* New set up a document to clip-under the catalogue the establishment be a new of the data clip;
* Change name-change the name that the data clip;
* Delete-delete that data to clip and among them of havings document;
* Row Preface way-according to the name, type, time, size row preface, can also choose "have no in proper order" be random arrange;
* Video frequency short subject (Video): The video frequency/document clip;
* Open-open a document;
* Broadcast: Broadcast a current video frequency document choose;
* Turn hair: Send out destination according to file type choose: (Telephone directory, screen saver, switch on/shut down animation, colorful message, blue tooth);
* Detailed data: Time of document creation and file size;
* Change name: Change document name;
* New set up a document to clip-under the catalogue the establishment be a new of the data clip;
* Move: Move that file to the other data clip;
* Delete: Delete the document change;
* Delete all document: Delete current the data clip medium of havings sub-document;
* Row Preface way: According to the name, type, time, size row preface, can also choose "have no in proper order" be random arrange;
* New set up a document to clip-under the catalogue the establishment be a new of the data clip;
* Change name-change the name that the data clip;
* Delete-delete that data to clip and among them of havings document;
* Row Preface way-according to the name, type, time, size row preface, can also choose "have no in proper order" be random arrange.

9. Network
9.1. STR service
The SIM Tool Kit brief name is "STR". It is of each network operator provide of according to the network of the SIM card message service, its contents see each operator but difference.

9.2. WAP
This cellular phone pass a WAP browser and can register all write according to the WAP's agreement of web page, thus obtain abundant of information. (Such as: Weather forecast, news, electronics book, game, diagram bell, every variety information.) Certainly, the demand remind what you attention: BE: These information may be charge of, in the meantime browse the GPRS discharge produce by WAP web page expenses demand another pay an operator to the network.

* Home page-the direct conjunction arrive already constitution of home page. Choice recognize tactly home page of constitution carry on constitution to the menu "constitution" - edit constitution file". Pass the web page that the menu "options" - constitution become home page" will like constitution the leader page while browse WAP web page.
* Book label-pass book label can the direct conjunction arrive already constitution good book label web page. Pass into "options" menu, constitution book label. (go to, edit, delete, join new label book, constitution become home page)
* Web page history record-record recent interview lead of web page, in order to in direct from last time terminate of the position continue to browse.
* Have already saved a web page-the record have been already keep of web page.
* Please importation Web address-pass direct importation Web address of way, conjunction arrive a certain WAP web page.
* The service accept a box-the information of WAP PUSH for receive.
* Constitution-constitution the related parameter of the WAP browser.
9.3. Data account
Carry on a constitution to the GPRS numbered account data, cellular phone factory already inside place the numbered account information row on item. Add an service supplier. If the numbered account information of your service supplier is in should the row form, direct selection then. Otherwise please the information which provide according to your service supplier to add a numbered account information in the row form, and it activate in the menu lieutenant general of "choice constitution file" of WAP browser, then can make WAP browser and colorful massage function normal work.

10. Management machine

10.1. Alarm clock
This cellular phone provide a customer a constitution 5 sets to make bell and the parameter's constitution as follows show: 
1. Open/close: Whether the choice be this alarm clock function.
2. Time: Make a bell start time.
5. Love to sleep time: Constitution cellular phone alarm clock again the partition of the bell time value.
10.2. The king of the speech
After opening that function, can importation speech fast the function that usage need.
* At lord interface importation voice the instruction get into menu. 
At lord the interface be long press "OK" the key hear "Du" of an express read a menu name to can get into a rightiness should of function.
* Want the lord interface importation telephone thin personal name stir number
Read a telephone after the lord interface is long press "OK" key hear "Du" of a thin medium have already had connection personal name can call to can carry on stirring number.
* Speech point in music player song.
Read a the song name in the song detailed list to carry on point to broadcast song after music player interface ascend grow press "OK" key to hear "Du" of a.
* The information conserve of the speech choice.
Read a telephone after "choice send out number" interface ascend grow press "OK" key hear "Du" of an after writing completion a message thin medium have already had connection personal name to call choice conserve number.

10.3. Calendar

1. Agenda: Join the date, time, item remarks of importance affair and make bell to have search.
2. Add an item: Add an agenda item.
3. Jump to appointed date: Look into the calendar information which choose appointed date.
4. Examine by week: Calendar interface with week manifestation, you can look into every week of agenda arrangement circumstance.
5. Lunar calendar: After opening "lunar calendar", in the calendar lieutenant general would the manifestation each date rightness should of lunar calendar information.

10.4. Memo
* Add: While adding agenda, customer demand first choice category, have respectively other, meeting, course, appointment, telephone, anniversary, dissimilarity of the category use respectively dissimilarity of diagram mark mark, with convenience you distinction, choice good category juniors go into agenda edit interface, demand edit the following contents:
* Date: The date that the affairs need to be remind, pass to click conjecture keyboard importation date that need to be establish;
* Time: Time that the affairs need to be remind, pass to click a conjecture keyboard importation to carry on remind time of constitution;
* Remarks: The description of affairs is edit window importation contents;

and key sound.
3. Bell way: Bell presses the bell, vibration and bell, vibration four kinds of mode.
4. Bell ring type: continuous, gradually strong.
5. Hint sound: Open or close warming sound, mistake, network conjunction sound, converses conjunction four kinds of hint sound.
6. Connect to listen to a way: The constitution of the cellular phone telephone of should answer a way for press in addition to hang machine key with 'cancel' function key of arbitrary the key can connect to listen to a telephone.

11.2.2. Time switch machine

Constitution: cellular phone according to constitution of time auto open/shut down.

11.2.3. Language

Cellular phone interface the language kind, English and simplified Chinese character of the language, the system recognize tacitly for simplified Chinese character. 
11.2.4. Prepare to establish an input method

The input method constitution of cellular phone, there is intelligence pronounciation, brush stroke input, capital letter letter of alphabet, small letter letter of alphabet, numeral input etc. be five kinds of input by oneself choice.
11.2.5. Manifestation constitution

* Topic chemical element-the constitution need the background pattern of machine screen.
* Constitution on the constitution switch on animal.
* Shut down animal-the constitution shut down animal.

11.2.6. Auto time of renewal

Constitution auto renewal time for open, close.
11.2.7. Flights mode

Get into this menu manifestation need machine mode. Can choose between the normal mode and fly mode.
11.3. Handwritten importation constitution

1. Handwritten constitution

The constitution handwritten speed color with handwritten pen.
2. Touch to hold a school quiz-When you feel that touch to hold an in hand machine touch hold up the operation of reaction not precision, then can pass to touch to hold a school quiz to adjust touch to hold of precision.Use to touch to hold a pen to click diagram a mark center according to the constitution. After having to be accurate to click 3 times, the screen touch a manifestation to hold a school quiz successful of hint.
11.4. Light
The PC synchronous telephony data function of this cellular phone support, can with PC synchronous telephone directory, message etc. data. The hand machine switch on appearance button, such as the present of USB cable cellular phone of the USB connect a conjunction to the computer, and the in hand machine carry choice the "sequence connect". Install good after driving procedure, FC then with cellular phone synchronous telephone directory, message etc. data. Should function demand install the appropriation drive and the company drive the gearing to protect existence inside the T card to be called "PC asynchronous drive tool" to ask a customer to according to gearing usage allocation install for the customer? 

11.6. The data connect
11.7. Enclosure constitution
Can constitution balanced machine change

music broadcast effect.

11.8. Allocation constitution
11.8.1. Network choice
(Constitution auto[commission] or move for the cellular phone selection network. Choice auto way, the cellular phone will have the initiative a selection according to the network of SIM card place.
