You can take it on the airplane, on the beach or in the park, any place you can imagine, in any position to wear and enjoy the wonderful audio-visual! 32GB expandable storage space, making you being able to put in more added program at any time to play and enjoy!
SAFETY NOTICE

1.1 Warm notes:
* Keep the machine dry all the time!
* Please use the accessories recommended only!
* Please do not divide the head cover (or back cover. If repair is needed, please contact our distributors. Unauthorized repair of the product shall lead to the loss of warranty.
* Avoid dropping and knocking the product. Keep TFT screen from violent shakes to avoid damages to the screen and improper display. Users shall be held liable for any problems resulted from dropping or knocking.
* Damage caused by unproper operations, we does not provide free warranty!

1.2 Video Glasses Notes
* To avoid possible failure, do not disconnect when uploading or downloading is in process.
* Due to the different calculation of capacity and the space taken by firmware and FAT partition table of flash memory, the labeled storage capacity can be slightly different from the volume when connected to the PC, depending on the version of firmware and the type of Flash memory.
* Since files and programs on the product can be easily damaged by the spreading of computer virus, measures should be taken to prevent computer virus. Once the product fails to operate due to contamination of virus, firmware should be upgraded on a computer free from virus before format is conducted.
* There will be slightly rises in temperature when the battery is recharged. This will not affect the proper use of the machine. Software and hardware versions may lead to some difference in performance and function, and are subject to change without prior notice. The manufacturer reserves all the rights for the improvement of the product design.
* Do not use the product in extreme temperatures, dusty and humid environment.

1.3 In The Following Places, It Is Necessary To Pay Special Attention So As Not To Lead To The Failure Of The Product.
1. Places which are sandy and dusty
2. Easily contact with water, such as in rainy days or on the beach.

We sincerely recommend you do not let the video glasses stay in your pocket when you sit down, or forced it into packages which are filled with things.
