Thank you for your purchase of the Motion S Phablet. Before using this product, please carefully read this manual.

Please note that the functions and information in this manual are subject to change without any prior notice. E-Ceros cannot be held responsible for any loss of personal data and damage caused by incorrect operation of software/hardware, artificial damages, replacement of batteries or any other accident. To avoid loss of your data, please backup your data to your computer.

E-Ceros cannot control any issues arising due to users’ misunderstanding or incorrect operation against what is stated in the manual, and E-Ceros can not be held liable for any accidental loss potentially occurring.

Please do not repair the E-Ceros Motion S Phablet by yourself, as doing so will void the warranty, and after-sale service can not be provided.

Safety Notices
1. Please do not subject E-Ceros Motion S to drops, impacts with hard objects, objects that can cause scratches, etc, as this may cause damage to the tablet mold or the screen, battery damage, data loss, or other damages to the internal hardware.
2. Please do not expose the E-Ceros Motion S to humid environments or rain, as this may lead to water leaking into the phablet that may disable it to the extent that it is beyond the ability to repair.
3. It is recommended not to use earphones or a headset when media, set at a high volume, is played for a long period of time. Please adjust the volume down and avoid using the E-Ceros Motion S at high volume when using earphones or headsets to avoid damage to your hearing, as excessive volume can cause permanent hearing damage.
4. Please don’t turn the E-Ceros Motion S on where the use of wireless equipment is forbidden or when the usage of the device will cause interference and danger. Please observe any relevant restrictions.
5. It is suggested to use the original accessories provided and E-Ceros can not be held liable when non compatible accessories are used with the E-Ceros Motion S.
6. Do not attempt to removed and replace the battery as this will void the warranty.
7. Please don’t use the device at gas stations unless safely in your car and do not expose the E-Ceros Motion S to fuel or chemicals.
8. Please don’t use this product when you are driving or walking in the street, as this may cause an accident.
9. Never clean the E-Ceros Motion S with any chemicals and detergents as this will damage the product surface or screen, and corrode the surface.

1.2 Basic Operation

1.2.1 Switch On
When the E-Ceros Motion S is in turned OFF, press and hold the “Power” key for 3 seconds to enter the Android startup progress after which the system desktop will appear.

1.2.2 Unlock the Screen
Press and drag the \( \square \) icon to unlock the screen.

1.2.3 Lock the Screen
When the E-Ceros Motion S is ON, shortly press the “POWER” key, and the system will lock the screen and enter the power saving mode. The screen will turn OFF but the system will still be operational.

1.2.4 Switch Off
When the E-Ceros Motion S is ON, press and hold the “POWER” key for 3 seconds after which the screen will display the power off interface. Choose the power off selection to confirm, and the system will shut down automatically.

1.2.5 Battery Charging
Insert the included power adapter into the port on the device, and connect the power adapter to a power socket. While connected, the power indicating LED on the E-Ceros Motion S will light up blue and the desktop icon of the battery will continuing rolling showing that the device is charging.

[Note] This device can not use USB interface to charge.

[Note] The first time using the E-Ceros Motion S, you should charge the battery for at least 8-12 hours to make sure the battery is fully charged.

1.2.6 Switch Input Methods
The device supports handwriting, numbers, letters, etc. To use, follow these instructions:
Click any text input area of the working program interface, and the input keyboard will appear as shown:

Press \( \bigcirc \), and the “Input Method” interface will appear, as shown below:

Select the input method you wish here.
[Note] After installing an input method, you should go to “Settings>Language & Input>KEYBOARD & INPUT METHODS”, after which you can use it.

1.2.7 Using a Micro SD Card
Insert the micro SD card into the slot in the direction of the device’s bottom shell until you hear a click.
You can view and use the needed files in the micro SD card by following “MENU”->“File manager”->“SD Card”.
Remove the Micro SD card by first closing all open files located on the micro SD card, then enter into “MENU”->“SETTINGS”->“TF card(micro sd ) and & device storage”, click “Unmount SD card”, after which the system will prompt that Micro
SD card has been removed safely. Then tap the Micro SD card located in the slot
your fingertips to pop out the Micro SD card.
[Note] Do not insert the Micro SD card by force; this card can only be applied in
one direction.
[Note] Do not remove the Micro card before unmounting it if the device is on, or
the card may be damaged.
[Note] If the memory card is write-protected, data will not be formatted and
written, please remove the write protection before such operations.
[Note] Major brand memory card are recommended to avoid the risk of the
memory card not being compatible with the E-Ceros Motion S.

1.2.8 Connecting to the Computer
Connect the small end of the USB cable to the micro USB slot on the E-Ceros
Motion S and then connect the larger end to a free USB port on a computer. Select
“Settings > Developer options > USB debugging”, and the device will be connected
with the computer, and you can copy files to the device.

1.2.9 Browsing Files
Click “Explorer”, where you will be able to see the files on the device

1.2.10 Starting Programs
Click an application icon you want to start and it will switch on. All apps
preinstalled on the E-Ceros Motion S will function with no issues, but E-Ceros can
not verify that all Android Apps downloaded off the Google Play Store are
compatible.

1.2.11 Closing Programs
Press the icon continuously or the “ESC” key, and the device will close the
active program. You can also use the corresponding function in the management
list with currently running applications to close the program.

1.2.12 Screen Operation
You may zoom in and zoom out in applications which support zoom gestures, such
as photos, IE browser, mail, map etc. Zoom in or out the screen contents by
opening or closing your two fingers.
In applications which support rolling gestures, such as photos, IE browser, mail and
map etc. you can scroll the screen contents by sliding your fingers on the screen. If
you want to stop the rolling screen, you just need to touch it.

1.2.13 Home Screen
On the home screen, you can navigate to different pages by sliding your fingers on
the screen quickly.
To customize your home screen, press a blank area on the home screen interface
for a few seconds and an option named “Choose wallpaper from menu” will appear
from which you can then you can set the home screen.
To move or delete apps from the home screen, press icons of applications you
need to move or delete from the home for several seconds, this will bring up the
moving model (the icon of the application will be turn bigger), then drag the icon
to desired position, or move to the X to remove the app from your home screen.
[Note] Deleting a app icon from the home screen does not delete the app from the
memory on the E-Ceros Motion S.
To move the app icons to other pages on the home screen, press the app icons you
need to move until it enters into the moving model (the icon of application will be
turn bigger), then drag the icon to the left or right side of the home page, at which
time the next page will appear. You can drop the icon on the page at your desired
location, or continue to move it to different pages.

1.2.14 Screen Gestures
1) Press/Click
When you wish to start an app from the home screen, want to navigate website
links, ect, press the screen on the app, link, ect.
2) Slide
When you wish to navigate webpages, large pictures, etc., simply slide your fingers in a vertical or horizontal dragging motion.

3) Drag
When you wish to drag a draggable object, press the object with your finger, and drag the object to the desired position without taking your finger off.

4) Rotation
When you wish to rotate the orientation of a webpage, home screen, etc., rotate the device laterally.

1.2.15 Security
The E-Ceros Motion S provides many methods of device security when you turn on your device or wake up the device from sleep mode. The E-Ceros Motion S supports unlock security "Slide, Face Unlock, Pattern, PIN, Password". You can find and choose your preference in "Settings > Security > Screen lock".

1.2.16 Display Setting
To alter display settings, choose “Settings > Display” where you can set the brightness, wallpaper, Auto rotate screen, sleep, font size of the screen.

1.2.17 Wireless and Network Settings
Choose “Settings > Wi-Fi", turn on the wifi, and the device will find available wireless networks.

Select the desired wireless network, and the system will directly connect the network if it is an open network, otherwise a popup input window will appear for entering the password.
1.3 Communication Function

1.3.1 Phone
Press the Phone icon to begin
Operate as Picture 6.1

1.3.2 Text Message
Enter into main menu and choose
Click "Edit new message"

1.3.3 Contact List
Click Contact list in the main interface, enter into the contact list as Picture 6.3
1.4 GPS Function
1.4.1 GPS Navigation
3rd party maps (purchased by the customer or download for free) are required for the E-Ceros Motion S to operate in conjunction with its internal GPS satellite signal receiver. After map installation, the E-Ceros Motion S can accurately implement traffic real-time navigation.
