IV] The Correct Method of Operation

1] Pairing:

The procedure of building the coded connection for pairing of "Lloudspeaker Box" to other Bluetooth accessories.

Step 1: Press the <M|> key in the shut down mode for 3 seconds till the LED lights blue with slow flashing. If "Lloudspeaker Box" has connected to other accessories, it will automatically in the connecting mode and search for the previously connected equipments (about 10 seconds) Will go back to the Pairing Mode if not successful.

Step 2: According to Bluetooth instruction to enter the Pair Mode, you may search from the "Connect" or "Install" then to select the pair mode "Lloudspeaker Box" (Model No. JN-BT01)

Step 3: Upon the search of "Lloudspeaker Box" the cell-phone will ask if you are willing to connect, just click "yes" or "confirm" to acknowledge

Step 4: The screen of the cell-phone will show the input command or code, enter 0000 (4 times of 0) and the pair mode will be shown.

The beep sound and the flashing of LED every 7 seconds indicated the successful entry. If fail, please turn off the Bluetooth of the cell-phone and try again.

2] To dial a telephone

Step 1: Dial the number with the cell-phone.

Step 2: Press the "send" or "OK" key, the number dialed will be transferred to the box and, as a whole, the quality of sound will be at its best if there is no obstacle between the two equipments.

3] To end a telephone call

Either of the following will be applied

- 1.a soft touch <M|> the function key in the box
- 2.from the key of the cell-phone

When the telephone is in use, "Lloudspeaker Box" will change the from (A2DP) to the (HPF) status and the switch on the hands-free function will be applied. The music will pause but resume when the telephone is done (if the cell-phone has this function).

4] To answer an incoming call

Step 1: You will be notified by the sound from "Lloudspeaker Box" when there is an incoming call while listening music.

Step 2: Soft touch <M|> key. Note just a soft touch will be OK, for pick up or ending a call.

5] Redialing

Press <M|> until the beep is heard, then just release and the previous number will be redialed.

6] Input of Aux audio

Insert the 3.5 audio connector while playing, the Bluetooth will automatically change to Aux audio mode (the volume is adjustable) and will automatically change to the Bluetooth play mode when the input is released.

7] Volume Adjustment

Long press <-> to lower

Long press <+> to louder

8] Selection Function

Short press <-> the previous

Short press <+> the next

9] USB Recharge

"Loudspeaker Box" accepts re-charge either on/off. A mini USB connector is used. You will be alarmed with the doo doo sound, which alerts you the re-charge is immediately needed. The LED lights 'Red' to indicate charging in process once the USB is inserted. It takes 3 to 4 hours for completion until the LED changes to 'Green' light.

(First used please first charging 8 hours)

Notes for re-charging:

"Loudspeaker Box" uses mini USB type for charging, with built-in chargeable lithium battery.

Please make sure the initial 3 charges to the fullest extent to ensure the best operation. Application of any other improper recharger will damage the box and invalidate the warranty.

Please release the re-charge USB as soon as the box is fully recharged. The excessive recharge will deteriorate the re-chargeability of

the battery.

Warning:

Please do not use "Loudspeaker Box" in extreme heat or cold.

Keep away from stove, radiators, ovens, coffee machine or other device that will send the interference signal frequency.

V] Troubleshooting

When connectivity fails. Please check and confirm if both cell-phone and "Loudspeaker Box" are turned on and stay in Bluetooth mode.

When the broadcast volume is too high or too low. Please check if the volume of the cell-phone is set properly (the out-put possibly varies from each individual cell-phone)

When interruption happens. Please check if the distance of "Loudspeaker Box" and the cell-phone exceeds 10 meters (30 feet) or any obstacles in between the two equipments.

When doo doo sound is heard, it is time for the re-charge.
