First confirm other laptop or dest pc use same wifi router with the android mini pc, and open.
Example for windows7 laptop to show: open the windows media player

Click share your music, picture and video file, then on android mini pc homemedia player can find this pc, see follow:

If your pc share, then can find your pc, and click your pc.

Then you can player your pc file, 

1: other setting: In apps,
Question & Answer

- Screen flicker or unstable working: please check if the HDMI cable has been connected tightly.

- Can not start device: please download OS file from official website to refresh the device OS. Make sure all the important data has been backed up before processing. If the issue still cannot be solved, please contact the distributor which you bought from.

- Keep restarting system automatically: Please check if the device gets enough power supply (best is 5V, 2A). Sometimes, external HDD can cause power shortage. Please plug additional power supply for external HDD or other external devices.

- Can not find file in SD card or pen drive: Please check all the connection of the device.
