"Here's your dream. Premium SmartTV device"
ANDROID

Precautions before use
To prevent fire, electronic shock and damage of product, please do not let the player come into contact with rain, moisture or liquid. Do not put vases or other water containers on the player.
To ensure good ventilation, please do not put the player in bookcases, cabinet or other confined places. Keep well-ventilated to prevent fire or electronic shock caused by overheat of the player. Keep lit candles and other lit subjects away from the player. Please do not open the case of the player. Only a specialist is allowed to do this.

Placement of unit Issues
Please place the player on a flat area. Keep it away from sunlight and avoid heat, humidity and frequent shaking to avoid damage the case and other components of the player and shorten the service life of the player.For the best performance of the player, please do not place heavy objects on the player and keep it at least 6 inches away from the wall.

Power Issues
Do not use over-voltage, otherwise the player would be damaged and might cause fire. Please connect the power cord correctly and make sure the cable is not damaged. In the United States, that means supplying 110 VAC to the device.Please unplug the power cord if you do not use the player for long time to prevent damage caused by lightning.

Cleaning Issues
Please unplug the power cord before cleaning the player. Use a slightly wet rag to clean the player instead of liquid detergent. Do not use solvents like gas, because this might damage the case of the player.

Moisture Issues

Please keep the player away from any humid places, like a basement. Condensation of moisture might cause damage to the player. In this case, please turn on the player and the heat of the player may drive the humidity away.

About the user manual

Please read the user manual carefully and keep the manual in a safe place for review if necessary. The pictures in this user manual might be different with the pictures shown on the TV because of a difference in firmware versions.

Service

Please do not try to repair the player by yourself. Unauthorized repair might cause electronic shock or damage of the player. It is suggested that you contact www.ugoos.net web site for help with technical issues that cannot be resolved, after you read the "Troubleshooting Section" below.

A. Abnormal picture or audio output
B. The AC adaptor or the power cord is damaged
C. Liquid or other things enter the inner parts of the player
D. The player comes into contact with rain or other liquid
E. The player is dropped or damaged because of any other reason
F. The player operates anomalously

If any of the components needs to be replaced, please make sure only authorized components are used. Otherwise it might cause fire, electronic shock or other damages.

Remote control

The enclosed remote requires the use of two new "AAA" batteries. New alkaline batteries are recommended for the remote control, although rechargeable NiMH batteries are also acceptable.

Product introduction
