Getting Started

1.1 Getting to know your touch phone

1.2 Installing the SIM card, battery, and storage card

You need to remove the back cover before you can install the SIM card and battery. Also, make sure to always turn off the power before installing or replacing the SIM card and battery.

To remove the back cover
1. Make sure your device is turned off.
2. Firmly hold the device with both hands and the front panel facing down.
3. Push the back cover up with your thumbs until it disengages from the device and then slide it up to remove.

To install the SIM card
The SIM card contains your phone number, service details, and phonebook/message memory.

1. Remove the battery if it is installed.
2. Locate the SIM card slot, and then insert the SIM card with its gold contacts facing down and its cut-off corner facing out the card slot.
3. Slide the SIM card completely into the slot.

Note: Some legacy SIM cards may not function with your device. You should consult with your service provider for a replacement SIM card.

There may be fees for this service.

To install the battery
Your device comes with a rechargeable Lithium-ion battery and is designed to use only manufacturer-specified original batteries and accessories. Battery performance depends on many factors, including network configuration, signal strength, and usage patterns.

Warning: To reduce risk of fire or burns:
- Do not attempt to open, disassemble, or service the battery pack.
- Do not crush, puncture, short external contacts, or dispose of in fire or water.
- Do not expose to temperatures above 60°C (140°F).
- Replace only with the battery pack designated for this product.

1.3 Charging the Battery

New batteries are shipped partially charged. Before you start using your device, it is recommended that you install and charge the battery. Some batteries perform best after several full charge/discharge cycles.

Note: Only the AC adapter and USB sync cable provided with your device must be used to charge the device.

Connect the USB connector of the AC adapter to the sync connector on your device, and then plug in the AC adapter to an electrical outlet to start charging the battery.

As the battery is being charged while the device is on, a charging icon appears in the title bar of the Home screen. After the battery has been fully charged, a full battery icon appears in the title bar of the Home screen.

Warning: Do not remove the battery from the device while you are charging it.

Home screen

The Home screen is your starting point for using all the applications on your phone. You can customize your Home screen to display applications, shortcuts, and widgets as you like.

1. Touch the application tab with your fingertip to reveal the application icons.
2. The Home screen actually extends beyond the screen width. On the Home screen, slide your fingertips left and right along the screen to reveal the full width of the Home screen. This additional space gives you more room to customize Home with applications, shortcuts, and widgets.

Create Home screen shortcuts and widgets:
- Touch the application tab with your fingertip to reveal the application icons, slide your fingertip right to show the shortcuts and widgets.
- Select an Application shortcut, a Shortcut to some of your saved information (such as a play list), a Widget (a clock or picture frame) for your Home screen.

The application, shortcut, folder, or widget appears on Home screen.

Tip: To create an application shortcut quickly, touch the application tab to reveal all the application icons, then touch & hold an application icon. Its shortcut is added to the Home screen; close the application tab to see it.

4. To remove a shortcut or widget from your Home screen, touch & hold the item to enter "move mode". The application tab turns into a Trash button. Drag the item to the Trash button and release. You’ll know when your item is in the Trash because the item and the tab will turn red.

5. Move objects on the Home screen
- To move an icon or other item on the Home screen, you must first touch & hold it to enter move mode. The object will magnify when it’s ready to be moved.

Browser

To open the Browser, touch and select Browser icon.

The Browser always opens to the last Web page you were viewing. The first time you enter the Browser after powering on, your home page will display.

You can change your home page by pressing MENU > Settings > General > Set homepage.

Camera & Picture

All the pictures you can capture or view on your phone are stored on memory card, which must be installed in your phone. Before you can use the Camera or view pictures in Pictures, make sure you have a micro sd card card installed.

- Recycle or dispose of used battery as stipulated by local regulations.
1. Align the battery’s exposed copper contacts with the battery connectors at the bottom part of the battery compartment.
2. Insert the contacts side of the battery first and then gently push the battery into place.
3. Replace the back cover.

To remove the battery
1. Make sure your device is turned off.
2. Remove the back cover.
3. The bottom of the phone has a notch. Lift the battery by the notch to remove it.

To install a memory card
To have additional storage for your images, videos, music, and files, you can purchase a memory card and install it into your device.

1. Make sure that your device is turned off, and then remove the back cover.
2. Locate the memory card slot on the upper part of the exposed right panel.
3. Insert the memory card into the slot with its gold contacts facing down until it clicks into place.

Note: To remove the memory card, press it to eject it from the slot.

1.4 Starting up the device

Power on/off
To power off your phone, press & hold POWER. On release, the Phone options menu opens. Select 'Power off' and confirm.

To power on again, press & hold POWER.

Silent mode
To silence your phone quickly, press & hold the -volume button to zero volume. Or on the Home screen, touch and select Settings > Audio profiles. Select ‘Silent’ check box.

Screen sleep
After a period of inactivity, your screen will go to sleep (display will turn black). In sleep, your phone uses less battery power. You can control this behavior:

Set screen timeout period
1. On the Home screen, touch and select Settings.
2. Select Display option.
3. Select Sleep. Select a time from the menu.

Prevent sleep while charging
1. On the Home screen, then touch and select Settings.
2. Select Developer options.
3. Select ‘Stay awake’ check box.

Lock screen & put phone to sleep
Except when on a phone call, from any screen, press POWER (immediately). While not on a call, to lock your control buttons and screen from accidental touch activation, press POWER.

You can increase the security of your phone by setting Screen unlock pattern. Once set, in order to unlock your screen, you’ll have to draw the correct unlock pattern. You can set your screen unlock pattern as follows:
1. On the Home screen, touch and select Settings.
2. Select Security and then scroll down to Screen lock pattern section.
3. Set or change your unlock pattern by selecting Screen lock pattern as moved.

Without lifting your finger (or you’ll drop out of move mode), drag the object to the new position. To move an item to a section of the Home screen not in view, move it to the edge of the screen and hold it there for a moment. The screen view will shift; position the object and release.

Take a picture
To open the Camera, on the Home screen, touch and select Camera icon.

2. The Camera opens in capture mode. Frame your picture within the screen and hold the phone steady. Touch Camera button to capture. Continue to hold the camera steady for a second after you hear the shutter sound.
2.2 Making a call
On Home screen, touch \( \rightarrow \) Phone to enter the dial screen.
Touch the on-screen dial pad to enter a number, touch "Delete" button to delete numbers you've entered. Touch & hold to delete all the numbers in the field.
To dial a number, touch "Voice Call" button (Green icon \[ \] ) to select SIM1 card or SIM2 card to make a call. To end a call, touch "END" button (Red icon).  
1. Call log tab: Select an entry listed in the log to call the number.  
2. Contacts tab: Contacts with phone numbers are listed. Select a contact, and then select the phone number to dial the call.  

Note: The internal call is default closed (defined in the menu Settings/SIM management/Voice call). If you need to dial the internal call successfully, you must open the WLAN and add the account (defined in the menu Call settings/Internet call).  

2.3 Answering and Ending a call
When you receive a phone call, the incoming voice call screen will appear, allowing you to either answer or ignore the call.  
1. To answer an incoming call, slide 'ANSWER' (Green icon) button rightward.  
2. To reject a call, slide 'REJECT' (Red icon) button leftward.  

2.4 In-call options
While on a call, reveal the in-call options: Speaker, Mute, Hold, End.  
Note that if Bluetooth services are on and you are connected to a hands-free device, the more menu indicator will show Bluetooth on.  
1. Speaker: To use the speaker, select "Speaker" so it shows a green bar. To turn it off, select it again so the bar is unfilled. The status bar will display this icon when the speaker is on.  
2. Mute: To mute your side of the conversation, select "Mute" so it shows a green bar. To turn it off, select it again so the bar is unfilled. The status bar will display this icon when Mute is on.  
3. Hold: To put an active call on hold, select "Hold" so it shows a green bar. To resume the call, or take the call off hold, select it again so the bar is unfilled. If you take a call while already on a call, the first call will be placed on hold automatically. The status bar will display this icon when a call is on hold.  
4. Add call: If you need to enter numbers while on a call, touch "Add call".  
5. Incoming call: During call in progress, if you are on a call ("call in progress") when another call comes in ("incoming call"), you have a few choices:  
- Answer the incoming call and place the call in progress on hold. To switch calls at any time, touch "Swap call".  
- If you don't want to interrupt your call in progress, then touch "END".  
- If you have one call in progress and one caller on hold, to end both calls, touch "End all".  
6. While on a call, you can conference up to six callers, counting yourself. Note that you can also have an additional call on hold during a conference call.  

Note: Whether the device's networking capabilities allow you to make wireless Internet access will be displayed on the screen.

Ways of Connecting to the Internet
Your device's networking capabilities allow you to connect to the Internet or your corporate network through WLAN.  
You can also add and set up a VPN or proxy connection.  

WLAN
WLAN provides wireless Internet access over distances of up to 100 meters (300 feet). To use WLAN on your device, you need access to a wireless access point or "hotspot". Note: The availability and range of your device's WLAN signal depends on the number, infrastructure, and other objects through which the signal passes.  

2.5 Using call history
1. The missed call icon \( \) appears in the title bar when you missed a call.  
2. Use "Call log" tab to check who the caller was, or view all your dialed numbers, and received calls.  
3. To open "Call log" tab, touch "Call log" button in the phone screen to enter the call history list.  
4. Scroll to select the contact or number you want to dial, touch "Call" button.  
5. Tap and hold the selected contact you want to call, and then you can make to do the following options of call, edit number before call, send text messages, add to contacts or remove from call log phone on the shortcut menu.  

2.6 Call settings
On the dialing screen or call log screen, press MENU > Settings to enter Call settings - you can make the operation of voice call, voice call, internet call and the other settings.  

Note that when you open "Call settings" for SIM1 or SIM2, your current settings are fetched, which can take a few moments.  

Voice Call
Voicemail: Select to set a voicemail number that isn't being read from the SIM card.  

Call forwarding: Select how you want busy, unanswered, and unreachable calls to be handled. There is also an option to Always forward.  

Call barring: Restrict to answer or dial the call in any situation. You need to apply to the network operator for opening the international long-distance function and get network restricting code for barring setups.  

Additional settings: From this setting you can set your Caller ID preference and turn on/off call waiting.  

2.7 Bluetooth
You can use Bluetooth to send and receive calls using a headset or hands-free car kit.  

Turn on Bluetooth services
1. On the Home screen, then touch \( \rightarrow \) and select Settings.  
2. Select Bluetooth, and then select Bluetooth check box to turn on Bluetooth services.  
3. When on, the Bluetooth icon appears in the status bar.  

Pair & connect with Bluetooth devices
Before your phone can communicate with a Bluetooth headset or hands-free car kit, the devices must "pair", then "connect".  
1. Make sure you have turned Bluetooth on.  
2. Select Settings > Bluetooth > Bluetooth settings.  
3. Your phone starts scanning for Bluetooth devices within range. As they are found, the devices appear in the list of Bluetooth devices.  
4. To pair with a device in the list, select it.  
5. Type the device's PIN and then select "OK".  
6. Once paired, select the device name to connect. You can also touch & hold the name to open the context menu, and then select Connect.  
7. Pairing and connection status appear under the device name.  
8. Once the other Bluetooth device shows "connected" status, you can start using it to make and receive phone calls.  
9. To disconnect or unpair with a device, touch & hold the device to open the context menu. Select Disconnect or Unpair, as appropriate. If you select "Unpair" when connected, you will be disconnected as well.  

Notes: The phone supports only the headset and hands-free Bluetooth profiles, so if you try to connect to a device that is not a headset or hands-free car kit, then you will receive an "unable to connect" message.  

If you pair with a second headset while connected to the first, the first headset will remain connected. To switch connection to the second headset you must manually select that headset again after pairing.  

3 Setting on your device
Control phone-wide settings from the Home settings screen: touch \( \rightarrow \) and select Settings.  

3.1 Wireless & networks
SIM management
You can select to activate or deactivate the SIM card you want to open.  
Set the default SIM to use voice call, Video call, messaging and data connection.  
Wi-Fi
WLAN on/off: Select this check box if you prefer to use WLAN for your data connection.  
WLAN settings: Open the WLAN settings screen; select it from the network list. Provide your username or password if required.  

Bluetooth
Bluetooth on/off: Use this check box to turn Bluetooth services on or off.  
Bluetooth settings: With Bluetooth services on, you can open the Bluetooth settings screen to:  
- Rename your device.  
- Select to be discoverable for up to 120 seconds, or not discoverable.  
- Pair or unpair with one of the Bluetooth devices in range. You will be asked to type a PIN before pairing. Refer to the manufacturer's documentation for the PIN code.  
- Rename for devices.  

Music
To open your music Library, on the Home screen, touch \( \) and select the Music icon. Your music is organized into categories: Artist, Albums, Songs, and Playlists. Select a category to view the lists within each. Once in a category, keep swiping until you reach the music you want to play  

Alarm Clock
To open Alarm Clock, on the Home screen, then touch \( \) and select Clock icon. The Alarm clock offers as many alarms as you want.  

Google mail
To open Gmail™ webmail service, touch \( \) and select Gmail icon.  

Android Market
Android Market™ provides you with direct access to software developers throughout the world. It is the place to go to find fun games and cool applications that have been rated by your fellow Androids.  
To open the Market, on the Home screen, touch \( \) and select the Market icon
