

## PRODUCT PICTURE Charging

### Introduction:

This product uses the standard Bluetooth chip with 10M Bluetooth transmission distance. It supports iPhone, iPad, mobiles and MP3, MP4 with Bluetooth stereo function.

- Built-in long-lasting lithium battery. Convenient to users. Users can use it in bedroom or anywhere freely to enjoy the music.
- Use class D miniature digital amplifier circuit with high-performance, low-power consumption.
- With six functional operations, including the audio switch, play / pause, volume + / - , previous , next.
- With a 3.5mm universal audio interface that supports for multiple audio player.
- Mini-USB charging interface design. Users can use USB interface of the PC device, or USB power adapter to supply power.

Product Include:

- Mini USB Charging Cable 1PC
- 3.5mm audio cable 1PC

Electrical parameters:

- Frequency : 20Hz-20KHz
- SNR: 80Db
- Input voltage / current: DC5V/500mA
- Battery capacity: 1000mAh
- Speaker power: 4Ω5W
- Bluetooth transmission distance : ≤10M

### User Manual:

1. Turn on the audio, the voice of Bluetooth indicator sound, at the same time the red and blue light of Bluetooth indicator will flash alternatively.
2. Turn on the Bluetooth function, searching and connecting the audio frequency appliance "MARB0092". Following the instruction and enter password "0000". When the connection successfully, Bluetooth indicator into blue light flash slowly.
