To save power, you can set the time of screen timeout, such as 15s, 30s, 1 min, 2 min, 10 min, 30 min, etc.

20.6. Location & Security
You can set My Location on or off.

20.6.1. My Location
Touch this item to switch between “On” and “Off”. If it is “On”, the device location can be determined by WLAN.

20.6.2. Unlock Screen
You can set Screen lock.

- None: Disable screen unlock security.
- Pattern: Draw pattern to unlock screen.
- PIN: Enter a numeric PIN to unlock screen.
- Password: Enter a password to unlock screen.

20.6.3. SIM Card Lock
You can set SIM1 or SIM2 card lock.

- Lock SIM1 or SIM2 Card: Set Lock SIM1 or SIM2 on or off.
- Change SIM1 or SIM2 PIN: Change SIM1 or SIM2 PIN.

20.6.4. Passwords
You can set Visible passwords on or off.

20.6.5. Device Administration
Add or remove device administrators.

20.6.6. Credential Storage
You can set Credential Storage.

- Use Secure Credentials: Set Use Secure Credentials on or off, to allow applications to access to secure credentials and other credentials.
- Install From SD Card: Install encrypted certificates from SD card.
- Set Password: Set a password for the credential storage.
- Clear Storage: Clear credential storage of all contents and reset its password.

20.7. Applications
20.7.1. Unknown Sources
The third party application can only be installed only if this function is initiated. Otherwise, the third party application cannot be installed.

Note: When installing or using the third party applications, please take care! Only the user is responsible to the data damage or data loss, etc. that are resulted from the installation and use of the third party application.

20.7.2. Preferred Install Location
Change the preferred installation location for new applications.

20.7.3. Manage Applications
User can manage and remove the installed applications.

20.7.4. Running services
User can view and control currently running services.

20.7.5. Storage Use
User can view usage of files and applications.

20.7.6. Development
Set the options for application development.

- USB Debugging: Open or close USB debugging mode when USB is connected.
- USB settings: Set USB connection, Charge Only, USB tethering, USB storage, Remember my choice.
Stay Awake: The screen will never sleep during charging if this function is "On"; if it is "Off", the screen can sleep during charging.

Allow Mock Locations: The position can be simulated during debugging.

20.8. Accounts & Sync
You can perform adding accounts and Sync settings.
20.8.1. General Sync Data
Background Data: Set Background Data on or off, and it can sync & send & receive data at any time.
Auto-Sync: Set Auto-Sync on or off.
20.8.2. Manage Accounts
You can add or delete sync accounts.

20.9. Privacy
20.9.1. Backup and restore
You can back up application data, WLAN passwords, and other settings to Google servers.
20.9.2. Personal Data
You can perform Factory Data Reset.
Note: Perform factory data reset, it will clear user data in mobile phone, please be prudent to use this feature.

20.10. Storage
20.10.1. SD Card
Total Space: View the capacity of SD card when SD card is inserted.
Available Space: View the available space of SD card.
Unmount SD Card: You can unmount SD Card for safe removal.
Erase SD Card: You can erase all data on the SD card.
Note: If you erase SD card, it will erase all the data in SD card, please be prudent to use this feature.
20.10.2. Internal Phone Storage
Available Space: View the capacity of RAM.
Note: If you format Local disk, it will erase all the data in Local disk, please be prudent to use this feature.

20.11. Language & Keyboard
20.11.1. Language settings
You can select language, and add words to User Dictionary or delete words.

20.11.2. Keyboard settings
You can set the Android keyboard input method settings and word suggestion settings.

20.12. Voice Input & Output
You can perform Voice Input & Output Settings.

20.13. Accessibility
Manage accessibility options.
Note: This feature is based on the real product.

20.14. Date & Time
20.14.1. Automatic
Touch this item to switch between "On" and "Off". If it is set as "On", it updates the date and time automatically. This function is based on the services provided by the network.
Note: When this item is initialized, "Set Date", "Select Time Zone" and "Set Time" are not available.
20.14.2. Set Date
With time updating "Off", touch it to display the dialog box of Date Setting.
