information, please contact your service provider. Please keep this manual for future reference.

**Indicator icon**

Before you start, familiarize yourself with the icons in this manual:

**Warning**
- Likely to hurt themselves or others.

**Careful**
- May damage the phone or other equipment.

**Note**
- Notes, usage tips, or additional information.

**Installation**

**Unpack**
- Check your product box for the following items:
  - Cell Phone
  - The battery
  - Travel Charger (Charger)
  - Using manual

**Warning**

Only use approved software. Pirated or illegal software may cause damage or malfunction manufacturer's warranty.

The items supplied with your phone may be different, depending on your area or service providers, software and accessories. You can obtain additional accessories from your local dealer. Accessories for mobile phones to provide the best support. Accessories other than accessories may not be compatible with your phone.

**Install the SIM or USIM card and battery**

When you subscribe to a cellular service, you will receive a Subscriber Identity Module (SIM) card, which contains your subscription details, such as a personal identification number (PIN) and optional services. To use UMTS or HSDPA services, you can purchase a Universal Subscriber Identity Module (USIM) card.

**To install the SIM or USIM card and battery:**

1. If the phone is switched on, the long shutdown → press [0], and then select OK to close the phone.
2. Remove the battery cover.
3. Insert the SIM or USIM card into the phone, so that the gold contacts are facing.
4. Insert the battery.
5. Replace the battery cover.
Battery charging

Before using your phone for the first time, you must charge the battery.

Only use the phone charger and data lines. Doing so may cause the battery to explode or damage your phone.

The battery power is low, the phone will emit a warning tone and display a low battery message. Battery icon will appear blank. If the battery is too low, the phone will automatically shut down. Recharge your battery to continue using your phone.

1. Travel Charger charging

Plug the small end of the travel adapter into the multifunction jack.

Connecting the travel adapter improperly may cause serious damage to the phone. For any damage caused by misuse is not covered under warranty.

2. Plug the large end of the travel adapter into a standard electrical outlet.

Can be used in charging the phone, but it will extend the battery is fully charged.

1. When the phone is charging, the touch screen may be due to unstable power failure. In this case, unplug the travel adapter from the phone.

2. The phone is charging will get hot. This is normal and will not affect your device's lifespan or performance.

3. When the battery is fully charged (the battery icon is no longer moving), disconnect the travel charger and cell phone connection, and then unplug it from the electrical outlet.

Do not remove the battery before removing the travel charger. Doing so may damage the phone.

Charging may take about four hours for a fully discharged battery. The batteries are consumables, will gradually wear out, the charging time will also be shortened. The initial charging of the battery capacity of 1150 mAh.

To save power, unplug the travel adapter when not using the phone. Travel charger has no power switch, so you must unplug the travel adapter from the outlet to stop charging. When used, the travel adapter should remain close to the socket.

Charge with the PC data cable
Charge, make sure the computer is turned on.

One end (micro-USB) of the PC data cable into the multifunction jack.

2 Connect the other end of the PC data cable to the computer's USB port. Depending on the type of computer data lines, it may take some time before charging begins.

3 When the battery is fully charged (the battery icon is no longer moving), disconnect the PC data cable connected to the phone, and then unplug it from your computer.

Reduce battery consumption

If you start in the background automatic synchronization, Bluetooth function, or WIFI function, the battery will be consumed faster. For saving battery power, turn off unnecessary applications. You can also reduce the backlight time and brightness of the display, or do not have a mobile phone by a short press [O] to switch to the sleep mode.

Insert a memory card

To store more multimedia files, you must insert a memory card. The phone can use the microSD or microSDHC memory card capacity up to 32 GB (depending on memory card manufacturer and type).

1 Remove the battery cover and battery.

2 Insert the memory card in the phone to the gold-colored contacts facing down.

3 Insert the memory card to promote memory card slot until it locks into place.

4 Replace the battery and battery cover.

Remove the memory card

Remove the memory card before you uninstall the memory card for safe remove.

1 In standby mode, open the application list and select Settings → SD card & phone storage → Unmount SD card → OK.

2 Remove the battery cover and battery.

3 Push the card gently until it disengages from the phone.

4 Remove the memory card from the memory card slot.

5 Replace the battery and battery cover.

Do not remove the memory card when the phone is sending or access information, otherwise it may cause data loss or damage to the phone and memory card.

Format the memory card

Format the memory card on the computer may cause the memory card and the phone are not compatible. Please format the memory card only on the phone.

In standby mode, open the application list and select Settings → SD card & phone storage → Unmount SD card → OK → Format SD card → Format SD card → Delete all.

Before formatting the memory card, remember to back up all important data to your phone. The manufacturer's warranty service does not include data loss resulting from user actions.

Getting Started
Startup and shutdown

To boot, long press [O].

For shutdown, long press [O], and then select Shut Down → OK.

Restrictions on the use of wireless devices in the area (such as aircraft and hospitals), please observe all posted warnings and officials instructions.
