5. Dilute the spot, even in color, whitening
6. eliminate dark circles, eye bags

Safety precaution

Note: Please read following information carefully before using your machine
This product is well-designed precision instrument. Inorder to have you device functioning perfectly, please read the below information thoroughly and follow all the instructions. This will help you to ensure the warranty validity and to extend the life cycle of your product.

- 1.Store your product always from the humidity and do not use it under water.
Otherwise the electronic components of your product be corroded or have short circuit.
- 2.Never attempt to disassemble the product yourself. All the product components can only be maintained and repaired by professional technicians.
- 3.Don't use any adaptor other than the one included in the package. Using incompatible adaptor may result in malfunction and will avoid the warranty validity.
- 4.Any people with the following conditions must avoid using this product: patients with malignant, women during her pregnancy or period , patients with dermatosis of foci on themorrhage, urgent patient with unidentified diseases, and children and elders.
- 5.Keep this product away from children . Children shall not play with this product as the disassembled components may be swallowed by the children accidently.

Important notice

- 1.To ensure that this machine functions well, you can drop a tiny amount of water on the ultrasonic wave generator surface to see the water bobs. If the water bobs, it means that this machine is under normal function.
- 2.This machine should be used under normal conditions. Remember to turn off the power and unplug the cable when you stop caring skin. This will avoid over-heating problem caused by the air vibration and to prevent any possible burning of shortening product life cycle.
- 3.Don't use the machine without putting any skin care product on you skin-this will cause wave seriously reflection and result in discomfort or burning of your skin. Gelatinous skin care product is recommended.
- 4.Avoid using this machine in one area for too long. Move it around on your skin to avoid focusing effect caused by the wave energy. This effect may result in discomfort or burning of your skin.
- 5.When you are using this machine, always adhering the ultrasonic wave generator completely to your skin. An incomplete contact will cause a big difference of impedance and disperse energy on the interface. This will also cause an over-heating problem and result in a discomfort or burning of your skin.
- 6.When you finish using the machine, wipe off the medium left on the ultrasonic wave generator A soft cloth is recommended to prevent any possible scratch.
- 7.Do not use water and any other chemical, cleanser or washing-up liquid to clean this product. This will cause a malfunction or shortened product life cycle.

The Simple Allergy Test:

- 1.Cleanse your wrist.
- 2.Apply some essence that you intend to use on the cleansed area, let it dry naturally (During the test, please don't touch water nor wash the essence away). If you experience allergy or any skin abnormalities, stop the test immediately and contact your doctor or nearest hospital straight away.
- 3.If after 48 hours, no allergy or any other forms of skin abnormalities appear, you may enjoy using this special unique essence and equipment regularly.

Quick user guide

Confirm ultrasonic working

To ensure that this machine functions well, you can drop a tiny amount of water on the metal detector surface to see the water bobs. If the water bobs, it means that this machine is under normal function.

Note: it is best to use
specified essence like gel

Every 5 seconds will have a “bi” sound, remind you to move detector evenly.
Whether use or not, the machine will automatically turn off power after 10 minutes.
If you wish to use it again , please restart again.

Operation Cautions

1. When you are using this machine, always adhering the metal detector completely to your skin. An incomplete contact will cause a big difference of impedance and disperse energy on the interface. This will also cause an over-heating problem and result in a discomfort or burning of your skin.
2. Don't use the machine without putting any skin care product on you skin. Recommended way is using skin care product on skin and on the surface of detector, and should add some when become dry.

Basic way to move detector.

From bottom to upward.

Left and right Symmetrily
