## Solution

\*1) Unzip the entire two kind of ZIP files(please check following pictures for reference)

\*2) Double-click "Batchtool"- , then you could see the picture in below

- 3) Please Press the button (picture 1), insert the USB cable to slot "HOST4", then connect the DC power and turn on the TV box

You will see a pop-up notifications saying you have to install the drive on your computer. After download the drive, the plaid box will be turned to green color, then you could press "Recovery" button

Please add the App here which you need to upgrade
