Do Not Open the unit by yourself to prevent from laser beam’s radiation inside the unit. When opening the casing or releasing laser beam’s protecting organism, there will be visible laser beam radiated from inside, please Do Not looking at it!

Attention! In case of an electric shock, please use a flat pin plug matching its related socket & inserted firmly when using out-connecting power.

Attention! In case of an electric shock or causing a fire, Please Do Not leave the unit in rain or damp environment! Do Not Open the unit since there are some parts inside with hazardous high Volts currency and you may be electrified! Please resort to qualified technical person for a required repairing.

Warning: Without the expressive recognition of ourselves or our authorized group, any alternation, change or break down to the unit shall Not be granted by us & No after-sales service provided in this situation.

Safety instruction

1. Read user’s manual
   Having purchased this unit, Please read this manual carefully & follow all the operation & other points clarified.

2. Discs
   Do not use break, distorted or amended discs. They attempt to cause the unit trouble-shooting and make the laser beam overload or turn old sooner which lead to the discs reading ability problems decreasing!

3. Repairing
   Do Not Repair the unit by yourself since you may be electrified by hazardous high Volts currency inside the unit if you attempt to open the unit by yourself. Further, there are No repairing parts available for users inside the unit. So, any repairing should be made by professionals!

4. Water & moisture
   Try to prevent using the unit in places of rich water, such as bathtub basin, kitchen bowl-washing & clothes washing pools etc. also prevent to using in damp cellar, swimming pool & their similar locations.

5. Ventilation
   In order to keep a stable operation, you have to keep an environmental ventilation & Not overheated; Please do not place the unit on bed, sofa, cloth & clothing etc. to prevent block the ventilation hole.

6. Heat source
   Do keep it away from heat sources such as radiator, heat regulator heater oven & other heating items.

7. Earphone
   Before using earphone, make sure to adjust the volume control at the middle level to prevent hearing ability damage after a long period of high earphone volume.

8. Do Not look at the laser beam to prevent yourself from eyes hurt.

9. Do Not touch the switch of adaptor or any other electricity-bearing components with a wet hand to prevent electric shock.

10. Please unplug the adaptor by the head & Do Not pull off by the cable with your hand.
**Function Briefing**

- 9.2-inch TFT LCD color super clear picture full screen display
- Super electronic anti-shock (DVD 3 seconds, CD/VCD 10 seconds, MP3 90 seconds)
- Compatible with all discs (DVD/SVCD/VCD/CD/MP3/MP4/GAME)
- USB port which can be directly inserted with a U-disc and MSD card port with SD/MM/MS card
- TV receiver (PAL/NTSC/SECAM auto switching)
- Inside super strong lithium battery playing 2 half hours continuously.
- Built-in Dolby decoder to decode Mpeg II movies
- With name card style infrared remote controller
- Adapter power: AC 100~240V
- TFT pictures individuation adjustment such as up down, from left to right etc.
- TFT LCD Monitor can be adjusted freely as you like
- Delicacy, super thin surface design makes you enjoy a super excellent individual life savor
- Support NES 8-digit game function.
