Specification
- Influence mode: Pyroelectric Infrared Radial Sensor
- Influence control: Light sensor (only use in night, daytime cannot work)
- Sensor sensitivity angle: 60°
- Sensor sensitivity distance: 3m
- Power: 1.5V, 1PC "AA" LR06 or Charge-battery (not included)
- LED: Super white LED
- LED quantity: 4PCS
- LED life: 100000 Hours
- Delay time: Light will delay 5 seconds turn off
- Standby current: <0.35mA
- Battery life: 3 months (3-5 times/day, Hi-performance LR06 battery)
- Operating temperature: -5°--38°C
- Operating humidity: 5%-93%
- Product size: LXWXH: 81X46X20mm
- Weight: 75g

Installation method
- Use M3.0X20mm to fix up the stand.
- Use Double-side adhesive tape to fix up the stand.

Change battery

Battery precaution
- Be sure to follow the correct polarity when installing battery as indicated in the battery compartment.
- Reversed battery may cause damage to the device.
- Do not use old battery.
Thank you for purchasing the product. Before using this product, please read this user manual thoroughly so that you can use this product at its full function.
