

## How To Set The Time On The Pen Camera

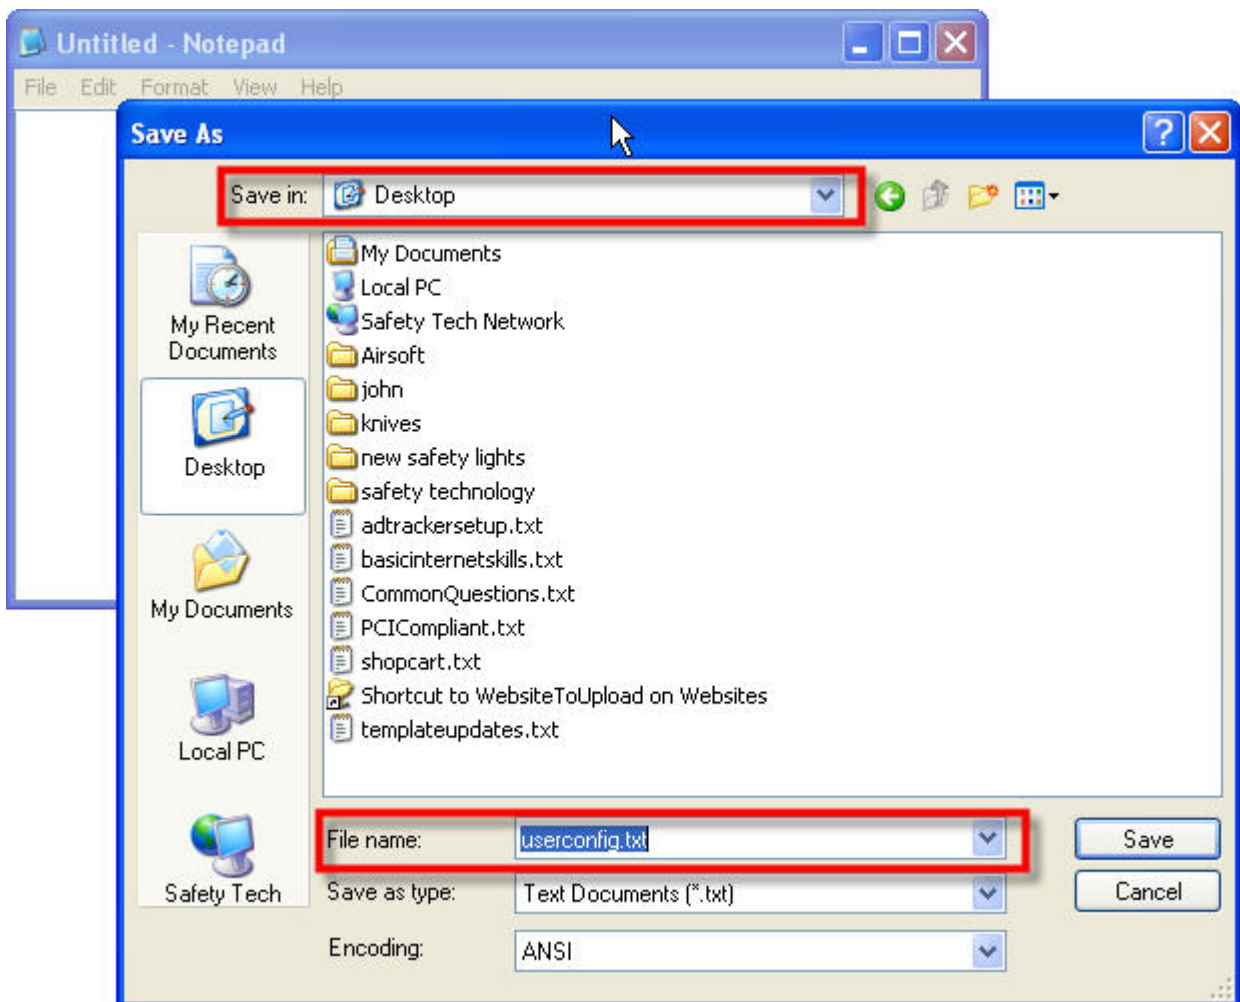

In order to see the time (year, month, date, hour, minute and second) during playback on recorded video, follow these steps:

1. Open the Notepad program on your computer

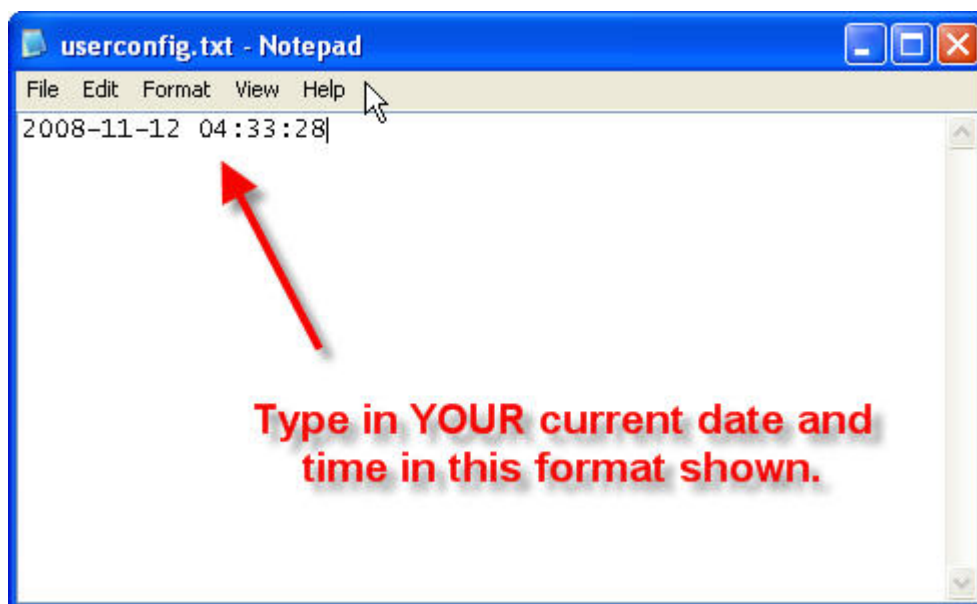

2. Create a new file on your desktop and name it: **userconfig.txt**

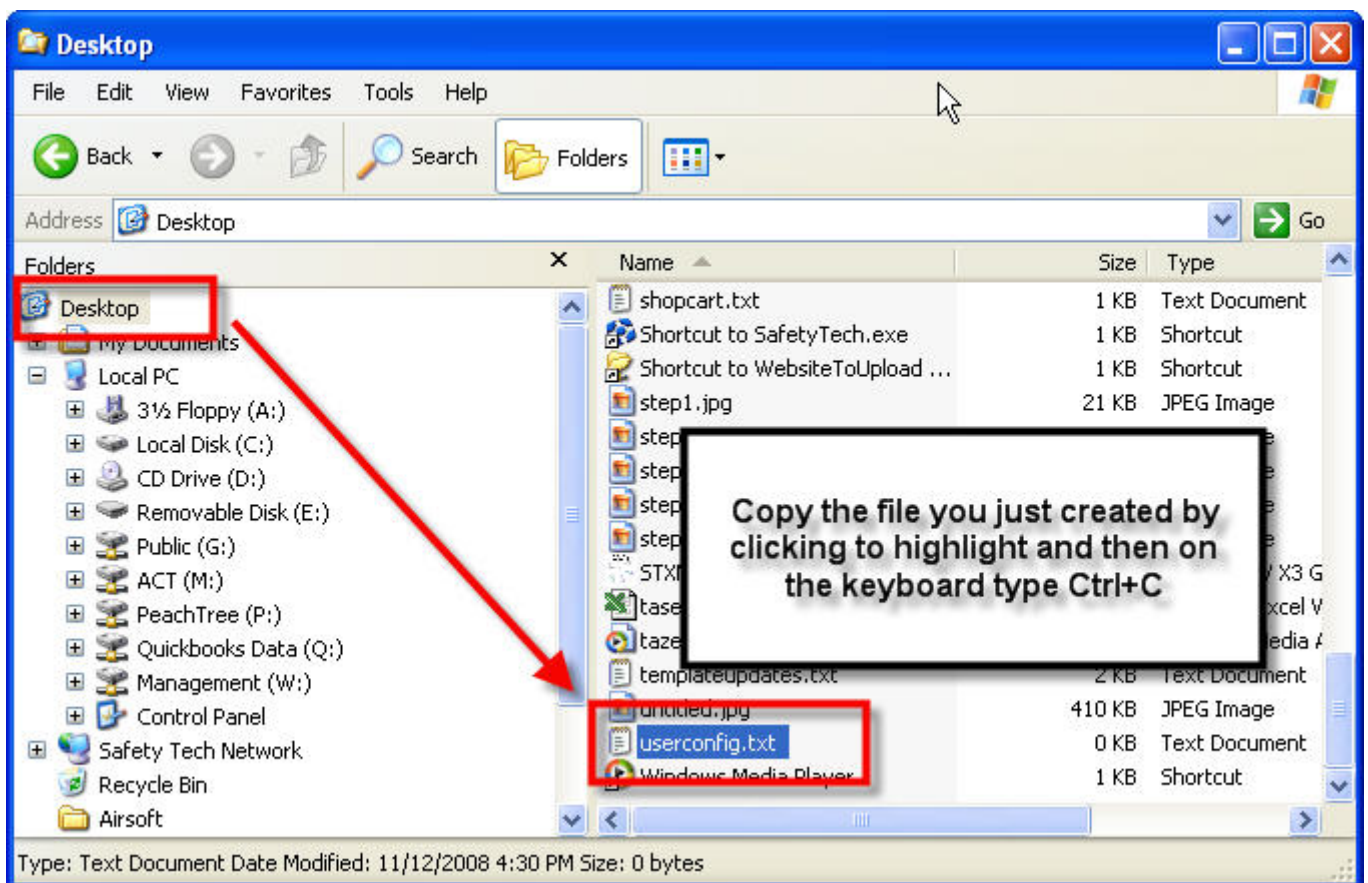

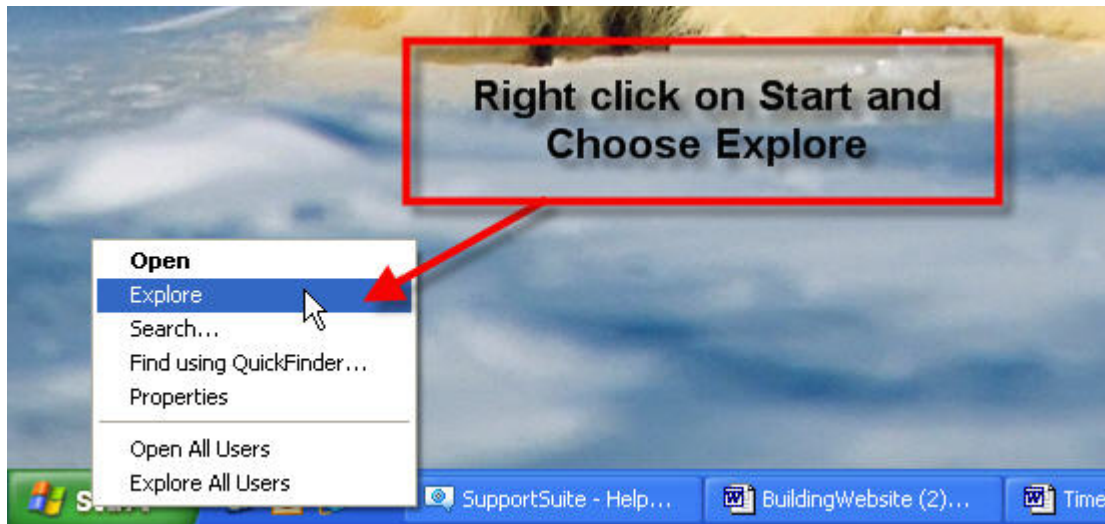

3. Now type in your current date and time in the exact format as shown here:

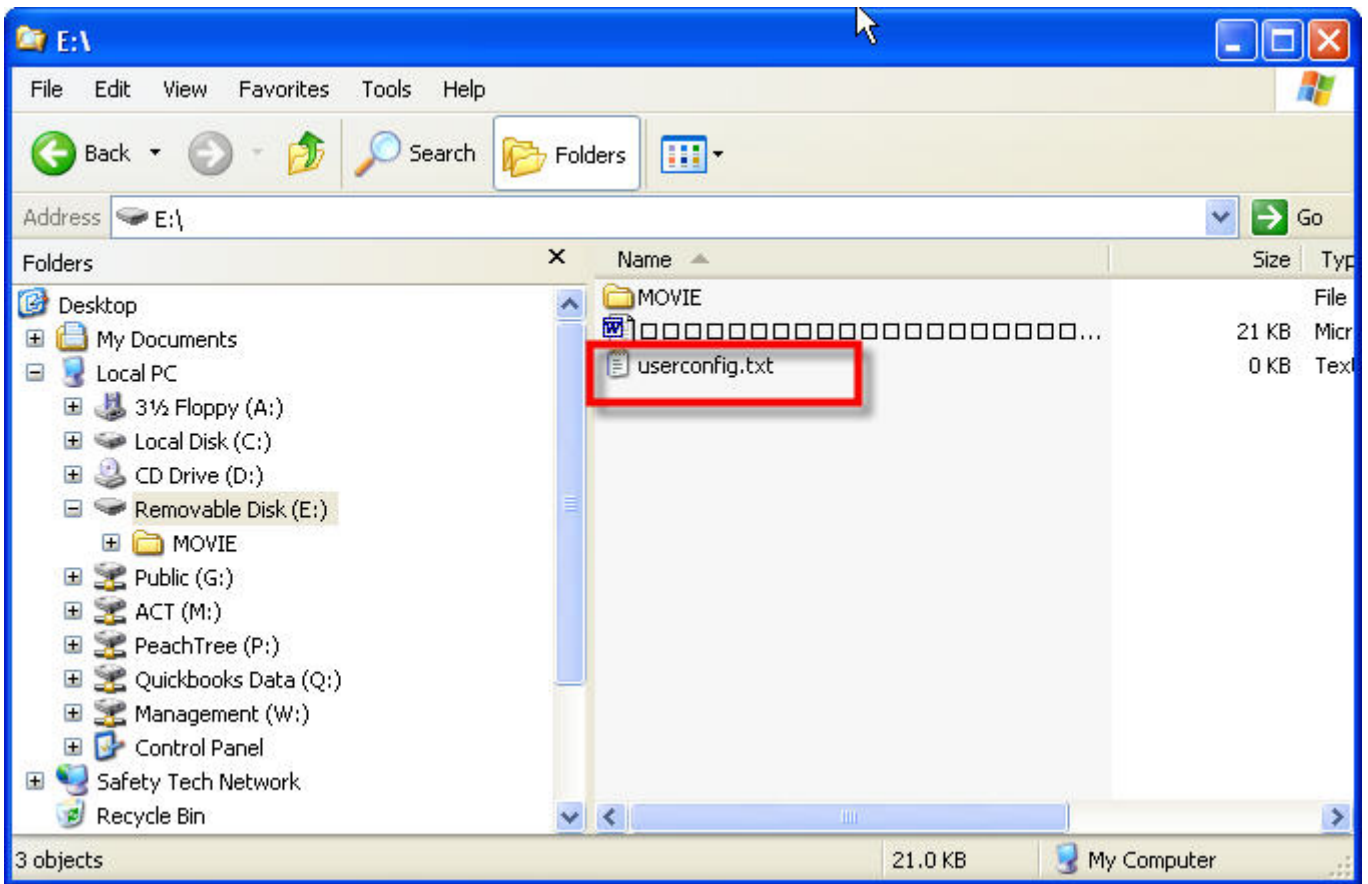

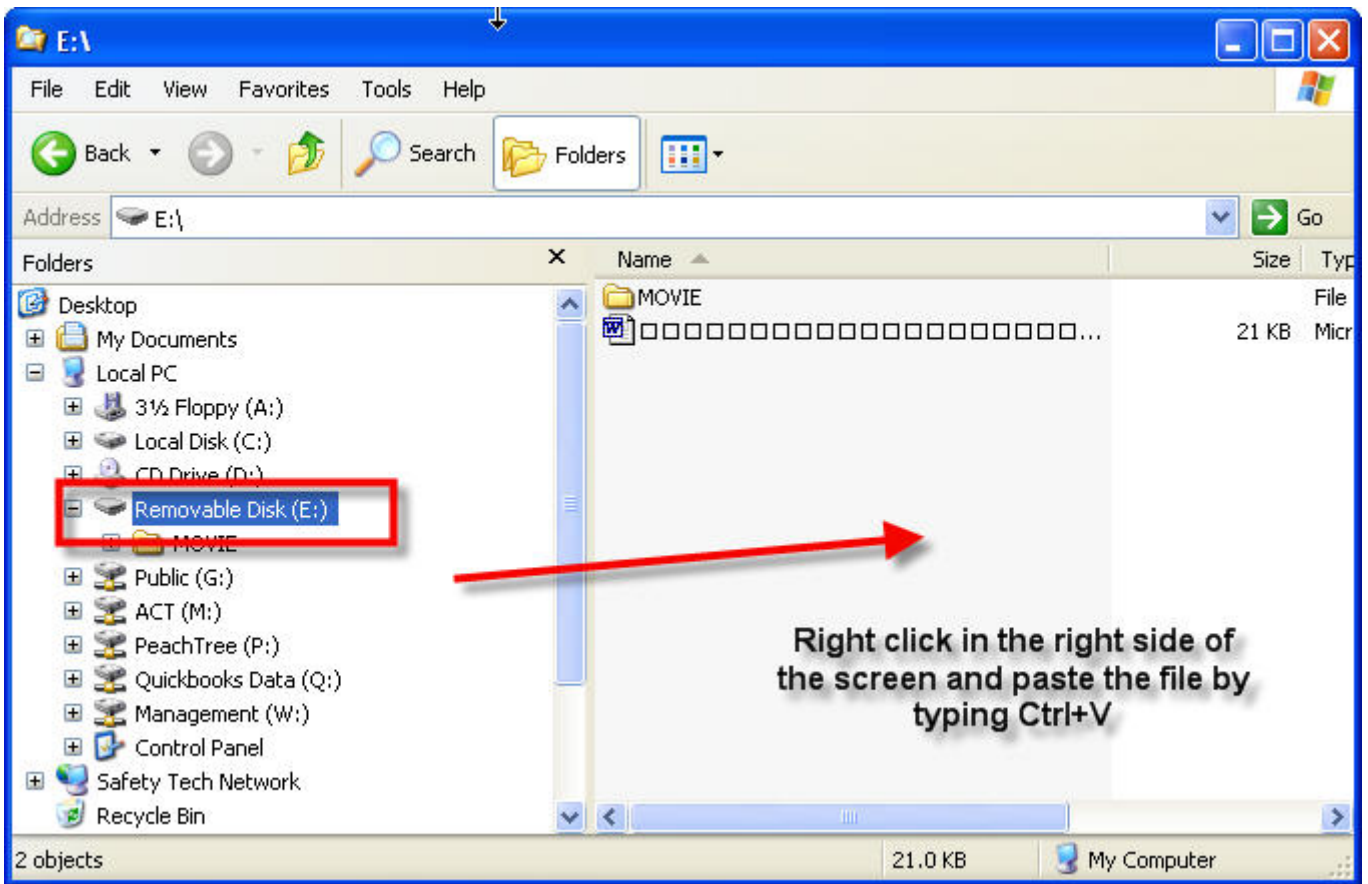

4. Plug in the Pen Camera to a USB port on your computer.

5. Now you want to copy the userconfig.txt from your computer to the Pen Camera drive:

6. Find the Removable Disk drive in the explore window and click to show the root:

7. Remove the Pen Camera from your computer, power off the camera, then power it back on and the time will be set.
